

TABLE 1—INTERIM REGISTRATION REVIEW DECISIONS BEING ISSUED—Continued

Registration review case name and No.	Docket ID No.	Chemical review manager and contact information
Tetrachlorvinphos, Case Number 0321 .....	EPA-HQ-OPP-2008-0316	Patricia Biggio, <i>biggio.patricia@epa.gov</i> , (202) 566-1938.
Triadimefon, Case Number 2700 .....	EPA-HQ-OPP-2016-0114	Matthew Khan, <i>khan.matthew@epa.gov</i> , (202) 566-2212.

## II. Background

EPA is conducting its registration review of the chemicals listed in Table 1 of Unit I pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed interim or final registration review decisions for the pesticides in Table 1 of Unit I.

Prior to completing the interim registration review decisions in Table 1 of Unit I, EPA posted proposed interim registration review decisions for these chemicals and invited the public to submit any comments or new information, consistent with 40 CFR 155.58(a). EPA considered and responded to any comments or information received during these public comment periods in the respective interim registration review decisions.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

*Authority:* 7 U.S.C. 136 *et seq.*

Dated: June 18, 2024.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-12029-01-OA]

### Request for Nominations for the Science Advisory Board BenSPLASH Review Panel

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) Science Advisory Board (SAB) Staff Office requests public nominations of scientific experts to form a Panel to review the Benefits Spatial Platform for Aggregating Socioeconomics and H2O Quality (BenSPLASH). BenSPLASH serves as one component in an integrated assessment model designed to quantify the economic benefits of changes in water quality. The Panel will evaluate the underlying valuation approaches and endpoints, benefits transfer applications and methodology, and default assumptions within BenSPLASH.

**DATES:** Nominations should be submitted by July 15, 2024 per the instructions below.

**FOR FURTHER INFORMATION CONTACT:** Any member of the public wishing further information regarding this Notice and Request for Nominations may contact Dr. Shaunta Hill-Hammond, Designated Federal Officer (DFO), EPA Science Advisory Board Staff Office by telephone/voice mail (202) 564-3343, or email at [hill-hammond.shaunta@epa.gov](mailto:hill-hammond.shaunta@epa.gov). General information concerning the EPA SAB can be found at the EPA SAB website at <https://sab.epa.gov>.

**SUPPLEMENTARY INFORMATION:** The SAB (42 U.S.C. 4365) is a chartered Federal Advisory Committee that provides independent scientific and technical peer review, advice, and recommendations to the EPA Administrator on the technical basis for EPA actions. As a Federal Advisory Committee, the SAB conducts business in accordance with the Federal Advisory Committee Act (FACA) (5 U.S. Code 10) and related regulations. The SAB Staff Office is forming an expert panel, the BenSPLASH Review Panel, under the auspices of the Chartered SAB. The BenSPLASH Review Panel will provide advice through the SAB. The SAB and the BenSPLASH Review Panel will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

EPA regularly estimates the benefits of surface water quality improvements associated with Clean Water Act regulations. EPA has developed

BenSPLASH, as one component in an integrated assessment model designed to quantify the economic benefits of changes in water quality (Corona, et al. 2020).<sup>1</sup> BenSPLASH can map water quality parameters to a water quality index (WQI). The main valuation approach can then estimate willingness to pay for changes in the WQI from a meta-analysis of surface water quality stated preference studies. The BenSPLASH Review Panel will conduct a review of the underlying valuation approaches and endpoints, benefits transfer applications and methodology, and default assumptions within BenSPLASH.

*Request for Nominations:* The SAB Staff Office is seeking nominations of nationally and internationally recognized scientists with demonstrated expertise in the following disciplines: *Aquatic Ecology, including aquatic environmental assessment, hydrology, and nutrient pollution; Computer Science including geographic information systems, programming (C# and R), and user interfaces; Environmental Economics, including benefits transfer, distributional impacts and environmental justice, national and subnational regional level analyses, meta-analysis, nonmarket valuation, and water quality benefits; Human Health Assessment, including risk assessment for waterborne pollutants and pathogens; Human Health Valuation specific to water quality and pollution impacts; Integrated Assessment Modeling; and Uncertainty Analysis.*

*Process and Deadline for Submitting Nominations:* Any interested person or organization may nominate qualified individuals in the areas of expertise described above for possible service on the SAB Panel. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) using the online nomination form on the SAB website at <https://sab.epa.gov> (see the “Public Input on Membership” list under “Committees,

<sup>1</sup> Corona, J.; Doley, T.; Griffiths, C.; Massey, M.; Moore, C.; Muela, S.; Rashleigh, B.; Wheeler, W.; Whitlock, S.D.; and Hewitt, J. 2020. “An Integrated Assessment Model for Valuing Water Quality Changes in the United States.” *Land Economics* 96 (4): 478–492.

Panels, and Membership” following the instructions for “Nominating Experts to Advisory Panels and Ad Hoc Committees Being Formed,” provided on the SAB website (see the “Nomination of Experts” link under “Current Activities” at <https://sab.epa.gov>). To be considered, nominations should include the information requested below. EPA values and welcomes diversity. All qualified candidates are encouraged to apply regardless of sex, race, disability, or ethnicity. Nominations should be submitted in time to arrive no later than July 15, 2024.

The following information should be provided on the nomination form: contact information for the person making the nomination; contact information for the nominee; and the disciplinary and specific areas of expertise of the nominee. Nominees will be contacted by the SAB Staff Office and will be asked to provide a recent curriculum vitae and a narrative biographical summary that includes current position, educational background; research activities; sources of research funding for the last two years; and recent service on other national advisory committees or national professional organizations. Persons having questions about the nomination procedures, or who are unable to submit nominations through the SAB website, should contact the DFO at the contact information noted above. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** Notice, and additional experts identified by the SAB Staff Office, will be posted in a List of Candidates for the Panel on the SAB website at <https://sab.epa.gov>. Public comments on the List of Candidates will be accepted for 21 days. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

For the EPA SAB Staff Office, a balanced review panel includes candidates who possess the necessary domains of knowledge, the relevant scientific perspectives (which, among other factors, can be influenced by work history and affiliation), and the collective breadth of experience to adequately address the charge. In forming the expert panel, the SAB Staff Office will consider public comments on the Lists of Candidates, information provided by the candidates themselves, and background information independently gathered by the SAB Staff Office. Selection criteria to be used for panel membership include: (a)

scientific and/or technical expertise, knowledge, and experience (primary factors); (b) availability and willingness to serve; (c) absence of financial conflicts of interest; (d) absence of an appearance of a loss of impartiality; (e) skills working in committees, subcommittees, and advisory panels; and (f) for the panel as a whole, diversity of expertise and scientific points of view.

Candidates may be asked to submit the “Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency” (EPA Form 3110–48). This confidential form is required for Special Government Employees (SGEs) and allows EPA to determine whether there is a statutory conflict between a person’s public responsibilities (which includes membership on an EPA federal advisory committee) and private interests and activities, or the appearance of a loss of impartiality, as defined by federal regulation. The form may be viewed and downloaded through the “Ethics Requirements for Advisors” link on the SAB website at <https://sab.epa.gov>. This form should not be submitted as part of a nomination.

**Information Collection Being Reviewed by the Federal Communications Commission**

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice and request for comments.

**SUMMARY:** As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the
