SUPPLEMENTARY INFORMATION:

Background: The Denali Commission's mission is to partner with tribal, federal, state, and local governments and collaborate with all Alaskans to improve the effectiveness and efficiency of government services, to build and ensure the operation and maintenance of Alaska's basic infrastructure, and to develop a well-trained labor force employed in a diversified and sustainable economy.

By creating the Commission, Congress mandated that all parties involved partner together to find new and innovative solutions to the unique infrastructure and economic development challenges in America's most remote communities. Pursuant to the Denali Commission Act, the Commission determines its own basic operating principles and funding criteria on an annual federal fiscal year (October 1 to September 30) basis. The Commission outlines these priorities and funding recommendations in an annual work plan. The FY 2025 Work Plan was developed in the following manner.

- At a meeting of the Denali Commissioners the Commissioners voted to adopt the FY 2025 Workplan.
- The work plan was published on Denali.gov for review by the public in advance of public testimony.
- A public hearing was held to record public comments and recommendations on the preliminary draft work plan.
- No public comments were received.
- The Federal Co-Chair prepared the draft work plan for publication in the

Federal Register providing a 30-day period for public review and written comment. During this time, the draft work plan will also be disseminated to Commission program partners including, but not limited to, the Bureau of Indian Affairs (BIA), the Economic Development Administration (EDA), Department of Agriculture—Rural Utilities Service (USDA/RUS), and the State of Alaska.

- At the conclusion of the **Federal Register** Public comment period Commission staff will provide the Federal Co-Chair with a summary of public comments and recommendations, if any, on the draft work plan.

- If no revisions are made to the draft, the Federal Co-Chair will provide notice of approval of the work plan to the Commissioners, and forwards the work plan to the Secretary of Commerce for approval; or, if there are revisions the Federal Co-Chair provides notice of modifications to the Commissioners for their consideration and approval, and upon receipt of approval from Commissioners, forwards the work plan to the Secretary of Commerce for approval.

- The Secretary of Commerce approves the work plan.

- The Federal Co-Chair then approves grants and contracts based upon the approved work plan.

FY 2025 Appropriations Summary

The Commission has historically received federal funding from several sources. The two primary sources at this time include the Energy & Water Appropriation Bill ("base" or "discretionary" funds), Transportation Housing and Urban Development (THUD) and an annual allocation from the Trans-Alaska Pipeline Liability (TAPL) fund. The proposed FY 2025 Work Plan assumes the Commission will receive \$15,000,000 of base funds, which is the amount referenced in the reauthorization of the Commission passed by Congress in 2016 (ref: Pub. L. 114-322), \$18,000,000 from THUD, less administrative expenses, and a \$2,917,000 TAPL allocation based on discussions with the Office of Management and Budget (OMB). Approximately \$4,000,000 of the base funds will be used for administrative expenses and non-project program support. The total base funding shown in the Work Plan also includes an amount typically available from project closeouts and other de-obligations that occur in any given year. Approximately \$117,000 of the TAPL funds will be utilized for administrative expenses and non-project program support, leaving
