BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2023-0130; FRL-12063-01-OMS]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Cellulose Products Manufacturing (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Cellulose Products Manufacturing (EPA ICR Number 1974.12, OMB Control Number 2060-0488), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through June 30, 2024. Public comments were previously requested, via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before July 29, 2024.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2023-0130, to EPA online using <https://www.regulations.gov/> (our preferred method), or by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. The EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the

comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this specific information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through June 30, 2024. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested, via the **Federal Register**, on May 18, 2023 during a 60-day comment period (87 FR 43843). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person, at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Cellulose Products Manufacturing (40 CFR part 63, subpart UUUU) were proposed on August 28, 2000; promulgated on June 11, 2002; and most-recently amended on July 2, 2020. These regulations apply to each existing, reconstructed, and new Cellulose Products Manufacturing operation that is either a major source of hazardous air pollutant (HAP) emissions or is collocated with other sources that are individually, or collectively, a major source of HAP emissions. A major source either emits or has the potential to emit any single HAP at the rate of 10 tons (9.07

megagrams) or more per year, or any combination of HAP at a rate of 25 tons (22.68 megagrams) or more per year. New facilities include those that either commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart UUUU.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900-647.

Respondents/affected entities: Cellulose Products Manufacturing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart UUUU).

Estimated number of respondents: 8 (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 7,256 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,134,894 (per year), which includes \$120,135 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There are no significant changes in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations: 1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and 2) the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup and/or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Information Engagement Division.
