

Flexibility Act's provisions do not apply here.

### C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

### D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

### E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

### F. Environment

We have analyzed this rule under Department of Homeland Security Directive 023–01, and Environmental Planning, COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f) and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human

environment. This rule involves establishment of a temporary safety zone for navigable waters of the Laguna Madre in a zone defined by a 700-yard radius from the following coordinate: 26°6′02.1″ N, 97°10′17.7″ W. The safety zone is needed to protect personnel, vessels, and the marine environment from potential hazards created by fireworks display in the waters of the Laguna Madre. It is categorically excluded from further review under paragraph L60(c) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1.

### G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

**I. Background**

The Fiscal Responsibility Act (FRA) of 2023, Public Law 118–5, requires each state, in consultation with the Secretary of the Department of Health and Human Services (HHS), to collect and report information relating to work outcomes measures for work-eligible individuals in the Temporary Assistance for Needy Families (TANF) Program. Section 304 of the legislation requires HHS to issue regulations implementing these new requirements. It states, “in order to ensure nationwide comparability of data, the Secretary, after consultation with the Secretary of Labor and with States, shall issue regulations governing the reporting of performance indicators under this subsection.”

We are updating the existing TANF data regulations (45 CFR part 265, Data Collection and Reporting Requirements) to reflect the new reporting requirements. “Each state . . . shall collect and submit to the Secretary the information necessary for each indicator. . . .” Section 304. “State” is defined to mean “the 50 States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, and American Samoa.” 42 U.S.C. 619 (5). States and territories must begin reporting on those requirements in fiscal year (FY) 2025. For the remainder of the preamble, we will use the term “states” to refer to states and territories. These provisions do not apply to Tribal TANF programs.

Section 304 of the FRA specifies that to ensure nationwide comparability of data, all states must collect and submit “the information necessary” to determine four indicators of performance. These are:

- **Employment Rate—2nd Quarter After Exit:** The percentage of individuals who were work-eligible individuals as of the time of exit from the program, who are in unsubsidized employment during the second quarter after the exit;
- **Employment Retention Rate—4th Quarter After Exit:** The percentage of individuals who were work-eligible individuals as of the time of exit from the program who were in unsubsidized employment in the second quarter after the exit, who are also in unsubsidized
