

information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0801.

Title: PIREP Form FAA form 7110-2.

Form Numbers: FAA 7110-2.

Type of Review: Renewal of information collection.

Background: The guidance for collecting PIREP information is contained in FAAO 7110.10, Flight Service, of which System Operations Services (AJR) is the office of primary responsibility.

Respondents: 821,832.

Frequency: On occasion, depending on the weather conditions encountered.

Estimated Average Burden per

Response: 3 minutes.

Estimated Total Annual Burden: <1 hour per respondent.

Issued in Washington, DC on June 28, 2024.

Katie Jo Ludwig,

Air Traffic Control Specialist, AJR-B100.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2019-0065]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on May 29, 2024, Mr. Ray Kolasa, President, Buffalo, Cattaraugus & Jamestown Scenic Railway (Petitioner) petitioned the Federal Railroad Administration (FRA) to extend a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards). FRA assigned the petition Docket Number FRA-2019-0065.

Specifically, Petitioner requests to extend the previous special approval pursuant to 49 CFR 215.203, *Restricted cars*, in this docket for cabooses PC 18216, which is more than 50 years from the date of original construction. Petitioner also seeks relief from

§ 215.303, *Stenciling of restricted cars*, to operate the car in tourist service on the Buffalo Southern Railroad and the Buffalo, Cattaraugus & Jamestown Scenic Railway. The petition states that stenciling of the caboose per the regulation "would distract from [the caboose's] historical image." In support of this request, Petitioner explains that no accidents or injuries have been associated with the use of the caboose. Further, PC 18216 will not be interchanged with any other railroad.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at www.regulations.gov. Follow the online instructions for submitting comments.

Communications received by September 3, 2024 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable. Anyone can search the electronic form of any written communications and comments received into any of the U.S. Department of Transportation's (DOT) dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See also <https://www.regulations.gov/privacy-notice> for the privacy notice of www.regulations.gov.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2008-0097]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letter dated May 8, 2024, New Jersey Transit (NJT) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 218 (Railroad Operating Practices). The relevant Docket Number is FRA-2008-0097.

Specifically, NJT requests continued relief from § 218.29(c)(1), *Alternate methods of protection*, which states that "when workers are on, under, or between rolling equipment on any track, other than main track: a derail . . . will fulfill the requirements of a manually operated switch when positioned no less than 150 feet from the end [of] such equipment." This relief permits NJT to instead apply the requirements of § 218.29(a)(4), which allows a derail to be positioned "at least 50 feet from the end of the equipment to be protected by the blue signal," at the Morrisville Yard facility in Morrisville, Pennsylvania.

In support of its request, NJT states that since the waiver has been in effect, no accidents, incidents, or injuries have occurred due to the relief. Additionally, NJT continues to enforce a speed restriction of 5 miles per hour and ensure that a Yard Master is present at the Morrisville Yard 7 days per week and for 24 hours per day, per the conditions of the relief.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted at www.regulations.gov. Follow the online instructions for submitting comments.

Communications received by September 3, 2024 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of the Department of Transportation's (DOT) dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2011-0106]

Denver Regional Transportation District's Request To Amend Its Positive Train Control Safety Plan and Positive Train Control System

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on June 24, 2024, the Denver Regional Transportation District (RTD) submitted a request for amendment (RFA) to its FRA-approved Positive Train Control Safety Plan (PTCSP) to support upgrades to the Locomotive Segment software for its Interoperable Electronic Train Management System (I-ETMS). As this RFA involves a request for FRA's approval of proposed material modifications to an FRA-certified positive train control (PTC) system, FRA is publishing this notice and inviting public comment on RTD's RFA to its PTCSP.

DATES: FRA will consider comments received by July 23, 2024. FRA may consider comments received after that date to the extent practicable and without delaying implementation of valuable or necessary modifications to a PTC system.

ADDRESSES: *Comments:* Comments may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and the applicable docket number. The relevant PTC docket number for this host railroad is Docket No. FRA-2011-0106. For convenience, all active PTC dockets are hyperlinked on FRA's website at <https://railroads.dot.gov/research-development/program-areas/train-control/ptc/railroads-ptc-dockets>. All comments received will be posted without change to <https://www.regulations.gov>; this includes any personal information.

FOR FURTHER INFORMATION CONTACT:

Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816-516-7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: In general, title 49 United States Code (U.S.C.) section 20157(h) requires FRA to certify that a host railroad's PTC system complies with title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification of a signal or train control system. Accordingly, this notice informs the public that, on June 24, 2024, RTD submitted an RFA to its PTCSP for its I-ETMS system, which seeks FRA's approval for an I-ETMS Locomotive Segment software update that includes additional features and enhancements to existing functionality. That RFA is available in Docket No. FRA-2011-0106.

Interested parties are invited to comment on RTD's RFA to its PTCSP by submitting written comments or data. During FRA's review of RTD's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent

practicable, without delaying implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTCSP at FRA's sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See <https://www.regulations.gov/privacy-notice> for the privacy notice of www.regulations.gov. To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information, please contact FRA for alternate submission instructions.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No.: PHMSA-2024-0079]

Adoption of Department of Energy Categorical Exclusion Under the National Environmental Policy Act

AGENCY: Pipeline and Hazardous Materials Safety Administration, Department of Transportation.

ACTION: Notice.

SUMMARY: The Pipeline and Hazardous Materials Safety Administration (PHMSA) is adopting a categorical exclusion (CE) established by the Department of Energy (DOE) that covers a category of actions that PHMSA proposes to take. This notice identifies the DOE CE and PHMSA's category of proposed actions for which it intends to use DOE's CE, describes the consultation between the agencies, and how PHMSA will apply and notify the public of its use.
