Title: FCC Application or Notification for Spectrum Leasing Arrangement or Private Commons Arrangement: WTB and PSHS Bureaus.

Form Number: FCC Form 608.

Type of Review: Revision of a currently approved information collection.

Respondents: Individual and households; Businesses or other for-profit entities; State, local, or Tribal government, and Not for profit institutions.

Number of Respondents: 1,697 respondents; 1,697 responses.

Estimated Time per Response: 0.05 hours-3 hours.

Frequency of Response: Recordkeeping requirement, third party disclosure requirement, on occasion reporting requirement, one-time reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 1, 4(i), 157, 301, 303, 307, 308, 309, and 310 of the Communications Act of 1934, as amended.

Total Annual Burden: 2,878 hours.

Total Annual Cost: \$1,763,375.

Needs and Uses: FCC Form 608 is a multi-purpose form. It is used to provide notification or request approval for any spectrum leasing arrangement ("Lease") entered into between an existing licensee in certain Wireless

and/or Public Safety Radio Services and a spectrum lessee. This form also is required to notify or request approval for any spectrum subleasing arrangement ("Sublease"). The data collected on the form is used by the FCC to determine whether the public interest would be served by the Lease or Sublease. The form is also used to provide notification for any Private Commons Arrangement entered into between a licensee, lessee, or sublessee and a class of third-party users (as defined in Section 1.9080 of the Commission's Rules).

The Commission is revising this form to collect information in order to confirm that satellite service operators and terrestrial service providers who seek to enter lease agreements in order to offer supplemental coverage from space (SCS) do so in compliance with the rules that govern SCS operations. On March 15, 2024, the Commission released a *Report and Order and Further Notice of Proposed Rulemaking* in GN Docket No. 23-65 and IB Docket No. 22-271, FCC 24-28, which adds new section 1.9047(d)(2) to the Commission's rules requiring the spectrum lessee or sublessee seeking to engage in spectrum leasing under this section to provide certain information within the Commission Form 608 when seeking a leasing agreement to provide SCS. Applicants will file Form 608 into the Commission's Universal Licensing System (ULS) database.

The Commission anticipates that SCS will enable consumers in areas not covered by terrestrial networks to be connected using their existing devices via satellite-based communications. SCS is a crucial component of the Commission's vision for a "single network future," in which satellite and terrestrial networks work seamlessly together to provide coverage that neither network can achieve on its own. In order to ensure that prospective SCS operators will be able to comply with the applicable rules, that the public interest will be served by granting their applications, and that harmful interference will be avoided to the greatest extent possible thereafter, the Commission seeks approval to collect the following information from prospective SCS spectrum lessees.

The Commission has adopted new requirements in its part 1 rules that obligate lessees to provide the following on FCC Form 608: a certification that they are entering a leasing agreement in order to provide SCS; a description of the type of permitted arrangement the parties will enter (e.g., is there a single terrestrial licensee or multiple terrestrial licensees that together hold the required
