

Annual Burden Hours: 4,167.

Needs and Uses: Recent suicide clusters aboard Naval vessels have highlighted a critical need to better understand risk factors for suicide among various shipboard environments (e.g., in maintenance yards, at sea). Unfortunately, extremely limited research to date has identified individual and organizational factors that are directly associated with harmful and destructive behaviors, including suicidality, in a variety of Naval environments. In response, the Office of Naval Research and the Defense Health Agency have funded a longitudinal study called the Challenges of Operational Environments Study to identify specific shipboard stressors associated with different phases of the aircraft carrier life cycle and determine the effects of these stressors on Sailor's mental and behavioral health and readiness. Research is needed to provide the Navy with in-depth information on specific risks to Sailors at each phase of the carrier cycle, such that allocation of resources to prevent suicidality and other mental/behavioral health problems can be tailored to meet potentially unique needs at each phase. Additionally, findings from the proposed effort will be used to develop targeted recommendations to improve Sailor mental health and well-being that will be provided directly to Navy leaders.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: CATCH Program; OMB Control Number 0703-0069.

Needs and Uses: Section 543 of Public Law 113-291, the National Defense Authorization Act for Fiscal Year 2015 requires that an individual who files a restricted report on an incident of sexual assault may elect to inform a Military Criminal Investigative Organization (MCIO) on a confidential basis and without affecting the restrictive nature of the report.

The MCIOs will use the information collected to query unrestricted sexual assault investigations and existing restricted reports in the CATCH database and potentially identify serial sexual assault offenders in both restricted and unrestricted reports of sexual assault. Respondents to this information collection are victims in restricted reports of sexual assault made to the Department of Defense. The respondents are providing information for this collection because upon making their restricted report of sexual assault to a Sexual Assault Response Coordinator, each respondent was given the option of voluntarily making a submission to this database. The respondents who elect to participate can do so by providing information electronically or through a CATCH submission form. The successful end result of this information collection is the identification of serial sexual assault offenders that otherwise may have gone undetected if the information had remained restricted from MCIO access.

Title of Collection: Higher Education Emergency Relief Fund (HEERF) I, II and III Data Collection Form.

OMB Control Number: 1840-0850.

Type of Review: Revision of a currently approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments; Private Sector.

Total Estimated Number of Annual Responses: 270.

Total Estimated Number of Annual Burden Hours: 2,160.

Abstract: Under the current unprecedented national health emergency, the legislative and executive branches of government have come together to offer relief to those individuals and industries affected by the COVID-19 virus under the Coronavirus Aid, Relief, and Economic Security (CARES) Act, the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and the American Rescue Plan (ARP). In each of these statutes, targeted relief to institutions of higher education (IHEs) was made available under the Higher Education Emergency Relief Fund (HEERF). HEERF, originally established by section 18004(a) of the CARES Act, Public Law 116-136 (March 27, 2020) and expanded through CRRSAA and ARP, authorizes the Secretary of Education to allocate formula grant

funds to participating IHEs to address impacts of the COVID-19 virus.

This information collection requests approval for a revision to a previously approved collection that includes annual reporting requirements to comply with the requirements of the HEERF program and obtain information on how the funds were used. The revision simplifies the collection by substantially reducing the number of items because specific grant activities within HEERF have expired and many of the items have become moot. In accordance with the Recipients Funding Certification and Agreements executed by HEERF grantees, the Secretary may specify additional forms of reporting.

Dated: July 9, 2024.
