*Annual Burden Hours:* 4,167.

*Needs and Uses:* Recent suicide clusters aboard Naval vessels have highlighted a critical need to better understand risk factors for suicide among various shipboard environments (e.g., in maintenance yards, at sea). Unfortunately, extremely limited research to date has identified individual and organizational factors that are directly associated with harmful and destructive behaviors, including suicidality, in a variety of Naval environments. In response, the Office of Naval Research and the Defense Health Agency have funded a longitudinal study called the Challenges of Operational Environments Study to identify specific shipboard stressors associated with different phases of the aircraft carrier life cycle and determine the effects of these stressors on Sailor's mental and behavioral health and readiness. Research is needed to provide the Navy with in-depth information on specific risks to Sailors at each phase of the carrier cycle, such that allocation of resources to prevent suicidality and other mental/behavioral health problems can be tailored to meet potentially unique needs at each phase. Additionally, findings from the proposed effort will be used to develop targeted recommendations to improve Sailor mental health and well-being that will be provided directly to Navy leaders.

#### SUPPLEMENTARY INFORMATION:

*Title; Associated Form; and OMB Number:* CATCH Program; OMB Control Number 0703-0069.

*Needs and Uses:* Section 543 of Public Law 113-291, the National Defense Authorization Act for Fiscal Year 2015 requires that an individual who files a restricted report on an incident of sexual assault may elect to inform a Military Criminal Investigative Organization (MCIO) on a confidential basis and without affecting the restrictive nature of the report.

The MCIOs will use the information collected to query unrestricted sexual assault investigations and existing restricted reports in the CATCH database and potentially identify serial sexual assault offenders in both restricted and unrestricted reports of sexual assault. Respondents to this information collection are victims in restricted reports of sexual assault made to the Department of Defense. The respondents are providing information for this collection because upon making their restricted report of sexual assault to a Sexual Assault Response Coordinator, each respondent was given the option of voluntarily making a submission to this database. The respondents who elect to participate can do so by providing information electronically or through a CATCH submission form. The successful end result of this information collection is the identification of serial sexual assault offenders that otherwise may have gone undetected if the information had remained restricted from MCIO access.
