

III. What is the Agency's authority for taking this action?

EPA is conducting its registration review of the chemicals listed in table 1 of unit II. pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(g) (7 U.S.C. 136a(g)) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. FIFRA section 3(g) provides, among other things, that pesticide registrations are to be reviewed every 15 years. Consistent with 40 CFR 155.57, in its final registration review decision, EPA will ultimately determine whether a pesticide continues to meet the registration standard in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). As part of the registration review process, the Agency has completed interim or final registration review decisions for the pesticides in table 1 of unit II.

Prior to completing the interim or final registration review decisions in table 1 of unit II., EPA posted proposed interim decisions or proposed registration review decisions for these chemicals and invited the public to submit any comments or new information, consistent with 40 CFR 155.58(a). EPA considered and responded to any comments or information received during these public comment periods in the respective interim decision or final registration review decisions.

For additional background on the registration review program, see: <https://www.epa.gov/pesticide-reevaluation>.

OMB Control Number: 3060-1294.

Title: FCC Authorization for Radio Service License—3.45 GHz Band Service.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, state, local, or tribal government, and not for profit institutions.

Number of Respondents and Responses: 52 respondents, 8,197 responses.

Estimated Time per Response: 5–20 hours.

Frequency of Response: Third party disclosure requirement; on occasion reporting requirement and periodic reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for these collections are contained in 47 U.S.C. 151, 152, 154, 154(i), 155(c), 157, 201, 202, 208, 214, 301, 302a, 303, 307, 308, 309, 310, 311, 314, 316, 319, 324, 331, 332, 333, 336, 534, 535, and 554 of the Communications Act of 1934.

Total Annual Burden: 9,198 hours.

Total Annual Cost: \$10,353,000.

Needs and Uses: On March 17, 2021, the Federal Communications Commission (“Commission” or “FCC”) adopted a Second Report and Order, FCC 21-32, GN Docket No. WT-19-348 (Second Report and Order) that establishes rules for flexible-use wireless access to the 100 megahertz in the 3450–3550 MHz (3.45 GHz) band, creating the new 3.45 GHz Service. The rules will create additional capacity for

wireless broadband allowing full-power operations across the band in the entire contiguous United States, while also ensuring full protection of incumbent Federal operations remaining in particular locations. As part of this process, the Commission also adopted rules related to the relocation of incumbent non-Federal radiolocation operations, and reimbursement of expenses related to such relocation.

Sections 2.016 and 27.1603 require a 3.45 GHz Service licensee whose license area overlaps with a Cooperative Planning Area or Periodic Use Area, as defined in those sections, to coordinate deployments pursuant to those licenses in those areas with relevant Federal agencies. This coordination may take the form of a mutually acceptable operator-to-operator coordination agreement between the licensee and the relevant Federal agency. In the absence of such an agreement, this coordination will include a formal request for access through a Department of Defense online portal, which will include the submission of information related to the technical characteristics of the base stations and associated mobile units to be used in the covered area. It does not require a revision to the FCC Form 601.

Section 27.1605 requires non-Federal, secondary radiolocation operations which are relocating from the 3.45 GHz band to alternate spectrum to clear the band for new flexible-use wireless operations to submit certain information to a clearinghouse in order to ensure their relocation costs are fairly reimbursed. It does not require a revision to the FCC Form 601.

Section 27.1607 requires 3.45 GHz Service licensees to share certain information about their network operations in that band with operators in the adjacent Citizens Broadband Radio Service in order to enable the latter to synchronize their operations to reduce the risk of harmful interference. In response to a request by a Citizens Broadband Radio Service operator, a 3.45 GHz Service licensee must provide information to enable Time Division Duplex synchronization. The exact nature of the information to be provided will be determined by a negotiation between the two entities, conducted on a good faith basis. The 3.45 GHz Service licensee must keep the information current as its network operations change.

Section 27.14(w) requires 3.45 GHz Service licensees to provide information on the extent to which they provide service in their license areas. Licensees are required to file two such reports: The first four (4) years after its initial license grant and the second eight (8)

years after such grant, unless they failed to meet the first set of performance requirements, in which case the second report is due seven (7) years after the initial grant. These reports are filed alongside the Form 601 and require no revisions to it.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Extension

AGENCY: Federal Trade Commission.
ACTION: Notice.

SUMMARY: The Federal Trade Commission (“FTC” or “Commission”) has clearance from the Office of Management and Budget (“OMB”) to send information requests, pursuant to compulsory process, to a combined ten or more of the largest cigarette manufacturers and smokeless tobacco manufacturers. The information sought includes, among other things, data on the manufacturers’ annual sales and marketing expenditures for cigarettes, smokeless tobacco products, and electronic devices used to heat non-combusted cigarettes, and sales of tobacco-free nicotine lozenges and pouches. The current OMB clearance for this information collection expires on August 31, 2024. Accordingly, the Commission is providing this second opportunity for public comment while seeking OMB approval to renew the pre-existing clearance and to modify the existing clearance to allow for the collection of additional information concerning annual marketing expenditures for tobacco-free nicotine lozenges and pouches by smokeless tobacco manufacturers or related companies.

DATES: Comments must be filed by August 14, 2024.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the **SUPPLEMENTARY INFORMATION** section below. Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open

for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Ostheimer, Division of Advertising Practices, Bureau of Consumer Protection, Federal Trade Commission, 600 Pennsylvania Avenue NW, Mailstop CC–10507, Washington, DC 20580, (202) 326–2699.

SUPPLEMENTARY INFORMATION:

A. Background

Pursuant to section 6(b) of the FTC Act, 15 U.S.C. 46(b), the Commission collects information on sales and/or marketing of cigarettes, smokeless tobacco products, tobacco-free nicotine lozenges and pouches, and electronic devices used to heat non-combusted cigarettes (collectively, “subject products”) from manufacturers of cigarettes and smokeless tobacco products. Depending on the type of product a manufacturer produces, the Commission requests the information using two different instruments—that is, a Cigarette Order or a Smokeless Tobacco Order. The Commission compiles and publishes the data in two periodic reports.

The current OMB clearance to collect this information is valid through August 31, 2024 (OMB Control No. 3084–0134). On March 26, 2024, the Commission sought public comment on its proposal to renew its current OMB clearance, and to modify its existing clearance to allow for the collection of additional information concerning annual marketing expenditures for tobacco-free nicotine lozenges and pouches by smokeless tobacco manufacturers or related companies. *See* 89 FR 20967 (Mar. 26, 2024). In response to the **Federal Register** Notice, the Commission received three germane comments, consisting of comments from two individual commenters and the Truth Initiative, a nonprofit tobacco control organization. The following section contains a discussion of the comments and the Commission’s responses.

B. Discussion of Comments

Two of the three comments express the commenters’ strong support for the information collection,¹ while one individual commenter generally asserts that government resources spent on collecting this information should be spent on other “much bigger issues”
