

SQF Port and SQF Purge Port fees because they are the only market participants that are permitted to quote on the Exchange. SQF Ports and SQF Purge Ports are only utilized in the Market Maker's assigned options series. Unlike other market participants, NOM Market Makers are subject to market making and quoting obligations.<sup>19</sup> These liquidity providers are critical market participants in that they are the only market participants that provide liquidity to NOM on a continuous basis. Providing NOM Market Makers a means to manage their cost by applying different fees for SQF Ports and SQF Purge Ports beyond 20 ports enables these market participants to provide the necessary liquidity to NOM at lower costs relative to their size. Therefore, because NOM Market Makers fulfill a unique role on the Exchange, are the only market participant required to submit quotes as part of their obligations to operate on the Exchange, and, in light of that role, they are eligible for certain incentives. The proposed SQF Port and SQF Purge Fee cap is designed to continue to incent NOM Market Makers to quote on NOM, thereby promoting liquidity, quote competition, and trading opportunities.
