BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-100496; File No. SR-CboeEDGX-2024-041]

Self-Regulatory Organizations; Cboe EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Its Fee Schedule To Introduce New Transaction Fee Tiers

July 11, 2024.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 1, 2024, Cboe EDGX Exchange, Inc. ("Exchange" or "EDGX") filed with the

Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") proposes to amend its Fee Schedule. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule applicable to its equities trading platform ("EDGX Equities") by: (1) introducing a new Add Volume Tier and (2) introducing a new Market Quality Tier. The Exchange proposes to implement these changes effective July 1, 2024.

The Exchange first notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. More specifically, the Exchange is only one of 16 registered equities exchanges, as well as a number of alternative trading systems and other off-exchange venues that do not have similar self-regulatory responsibilities under the Securities

Exchange Act of 1934 (the "Act"), to which market participants may direct their order flow. Based on publicly available information,³ no single registered equities exchange has more than 17% of the market share. Thus, in such a low-concentrated and highly competitive market, no single equities exchange possesses significant pricing power in the execution of order flow. The Exchange in particular operates a "Maker-Taker" model whereby it pays rebates to members that add liquidity and assesses fees to those that remove liquidity. The Exchange's Fee Schedule sets forth the standard rebates and rates applied per share for orders that provide and remove liquidity, respectively. Currently, for orders in securities priced at or above \$1.00, the Exchange provides a standard rebate of \$0.00160 per share for orders that add liquidity and assesses a fee of \$0.0030 per share for orders that remove liquidity.⁴ For orders in securities priced below \$1.00, the Exchange provides a standard rebate of \$0.00003 per share for orders that add liquidity and assesses a fee of 0.30% of the total dollar value for orders that remove liquidity.⁵ Additionally, in response to the competitive environment, the Exchange also offers tiered pricing which provides Members opportunities to qualify for higher rebates or reduced fees where certain volume criteria and thresholds are met. Tiered pricing provides an incremental incentive for Members to strive for higher tier levels, which provides increasingly higher benefits or discounts for satisfying increasingly more stringent criteria.

Market Quality Tier

Under footnote 1 of the Fee Schedule, the Exchange currently offers various Add/Remove Volume Tiers that provide enhanced rebates for orders yielding fee codes B,⁶ V,⁷ Y,⁸ 3,⁹ and 4.¹⁰ In particular, the Exchange offers one Market Quality Tier that provides an enhanced rebate where a Member

³ See Cboe Global Markets, U.S. Equities Market Volume Summary, Month-to-Date (May 22, 2024), available at https://www.cboe.com/us/equities/market_statistics/.

⁴ See EDGX Equities Fee Schedule, Standard Rates.

⁵ *Id.*

⁶ Fee code B is appended to orders that add liquidity to EDGX in Tape B securities.

⁷ Fee code V is appended to orders that add liquidity to EDGX in Tape A securities.

⁸ Fee code Y is appended to orders that add liquidity to EDGX in Tape C securities.

⁹ Fee code 3 is appended to orders that add liquidity to EDGX in Tape A or Tape C securities during the pre and post market.

¹⁰ Fee code 4 is appended to orders that add liquidity to EDGX in Tape B securities during the pre and post market.

²³ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

reaches certain add and remove volume-based criteria. The Exchange now proposes to introduce a new Market Quality Tier. In conjunction with the introduction of a new Market Quality Tier 1, the Exchange also proposes to renumber the current Market Quality Tier 1 as Market Quality Tier 2. The proposed criteria for proposed Market Quality Tier 1 is as follows:

- Proposed Market Quality Tier 1 provides a rebate of \$0.0025 per share for securities priced above \$1.00 for qualifying orders (*i.e.*, orders yielding fee codes B, V, Y, 3, or 4) where (1) Member adds or removes an ADV¹¹ $\geq 0.36\%$ of the TCV;¹² and (2) Member has a retail remove ADV (yielding fee codes ZM¹³ or ZR¹⁴) $\geq 800,000$; and (3) Member has a non-retail remove ADV (excluding fee codes ZM and ZR) $\geq 0.08\%$ of the TCV.

Add/Remove Volume Tiers

Also under footnote 1, the Exchange offers various Add/Remove Volume Tiers that provide enhanced rebates for orders yielding fee codes B, V, Y, 3, and 4, where a Member reaches certain add or remove volume-based criteria. The Exchange now proposes to introduce a new Tier 6. In conjunction with the introduction of a new Tier 6, the Exchange also proposes to renumber the current Tiers 6–8. The proposed criteria for proposed Tier 6 is as follows:

- Proposed Tier 6 provides a rebate of \$0.0031 per share for securities priced above \$1.00 for qualifying orders (*i.e.*, orders yielding fee codes B, V, Y, 3, or 4) where (1) MPID adds an ADV (excluding fee codes ZA¹⁵ and ZO¹⁶) $\geq 20,000,000$; and (2) MPID has a QDP ADV (*i.e.*, yielding fee codes DQ¹⁷ or DX¹⁸) $\geq 3,500,000$.

The proposed introductions of proposed Market Quality Tier 1 and proposed Tier 6 are intended to provide Members an opportunity to earn an

¹¹ ADV means average daily volume calculated as the number of shares added to, removed from, or routed by, the Exchange, or any combination or subset thereof, per day. ADV is calculated on a monthly basis.

¹² TCV means total consolidated volume calculated as the volume reported by all exchanges and trade reporting facilities to a consolidated transaction reporting plan for the month for which the fees apply.

¹³ Fee code ZM is appended to Retail Orders entered with a time-in-force of Day/RHO or GTX that remove liquidity from EDGX upon arrival.

¹⁴ Fee code ZR is appended to Retail Orders that remove liquidity from EDGX.

¹⁵ Fee code ZA is appended to Retail Orders that add liquidity to EDGX.

¹⁶ Fee code ZO is appended to Retail Orders that add liquidity to EDGX in the pre- and post-market.

¹⁷ Fee code DQ is appended to QDP orders that add liquidity to EDGX.

¹⁸ Fee code DX is appended to QDP orders that remove liquidity to EDGX.

enhanced rebate by increasing their order flow to the Exchange, which further contributes to a deeper, more liquid market and provides even more execution opportunities for active market participants. Incentivizing an increase in liquidity adding and removing volume through enhanced rebate opportunities encourages Members on the Exchange to contribute to a deeper, more liquid market, providing for overall enhanced price discovery and price improvement opportunities on the Exchange. As such, increased overall order flow benefits all Members by contributing towards a robust and well-balanced market ecosystem.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.¹⁹ Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²⁰ requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)²¹ requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers as well as Section 6(b)(4)²² as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

As described above, the Exchange operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive or incentives to be insufficient. The Exchange believes that its proposal to introduce a new Market Quality Tier 1 and a new Tier 6 reflects a competitive pricing structure designed to incentivize

market participants to direct their order flow to the Exchange, which the Exchange believes would enhance market quality to the benefit of all Members. Specifically, the Exchange's proposal to introduce a new Market Quality Tier 1 and a new Tier 6 is not a significant departure from existing criteria, is reasonably correlated to the enhanced rebates offered by the Exchange and other competing exchanges,²³ and will continue to incentivize Members to submit order flow to the Exchange. Additionally, the Exchange notes that relative volume-based incentives and discounts have been widely adopted by exchanges,²⁴ including the Exchange,²⁵ and are reasonable, equitable and non-discriminatory because they are open to all Members on an equal basis and provide additional benefits or discounts that are reasonably related to (i) the value to an exchange's market quality and (ii) associated higher levels of market activity, such as higher levels of liquidity provision and/or growth patterns. Competing equity exchanges offer similar tiered pricing structures, including schedules of rebates and fees that apply based upon members achieving certain volume and/or growth thresholds, as well as assess similar fees or rebates for similar types of orders, to that of the Exchange.

In particular, the Exchange believes its proposal to introduce a new Market Quality Tier 1 and a new Tier 6 is reasonable because the revised tiers will be available to all Members and provide all Members with an opportunity to receive an enhanced rebate. The Exchange further believes its proposal to introduce a new Market Quality Tier 1 and a new Tier 6 will provide a reasonable means to encourage liquidity adding displayed orders in Members' order flow to the Exchange and to incentivize Members to continue to provide liquidity adding and liquidity removing volume to the Exchange by offering them an opportunity to receive an enhanced rebate on qualifying orders. An overall increase in activity would deepen the Exchange's liquidity pool, offer additional cost savings, support the quality of price discovery, promote market transparency and

²⁰ 15 U.S.C. 78f(b)(5).

²¹ *Id.*

²² 15 U.S.C. 78f(b)(4).

improve market quality, for all investors.

The Exchange believes that its proposed introduction of proposed Market Quality Tier 1 and proposed Tier 6 is reasonable as it does not represent a significant departure from the criteria currently offered in the Fee Schedule. The Exchange also believes that the proposal represents an equitable allocation of fees and rebates and is not unfairly discriminatory because all Members will be eligible for the proposed new tier and have the opportunity to meet the tier's criteria and receive the corresponding enhanced rebate if such criteria is met. Without having a view of activity on other markets and off-exchange venues, the Exchange has no way of knowing whether this proposed rule change would definitely result in any Members qualifying the new proposed tiers. While the Exchange has no way of predicting with certainty how the proposed changes will impact Member activity, based on the prior months volume, the Exchange anticipates that at least one Member will be able to satisfy proposed Market Quality Tier 1 and at least one Member will be able to satisfy proposed Tier 6. The Exchange also notes that proposed changes will not adversely impact any Member's ability to qualify for enhanced rebates offered under other tiers. Should a Member not meet the proposed new criteria, the Member will merely not receive that corresponding enhanced rebate.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, as discussed above, the Exchange believes that the proposed changes would encourage the submission of additional order flow to a public exchange, thereby promoting market depth, execution incentives and enhanced execution opportunities, as well as price discovery and transparency for all Members. As a result, the Exchange believes that the proposed changes further the Commission's goal in adopting Regulation NMS of fostering competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."

The Exchange believes the proposed rule changes do not impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the introduction of proposed Market

Quality Tier 1 and proposed Tier 6 will apply to all Members equally in that all Members are eligible for the tiers, have a reasonable opportunity to meet the tiers' criteria and will receive the enhanced rebate on their qualifying orders if such criteria is met. The Exchange does not believe the proposed change burdens competition, but rather, enhances competition as it is intended to increase the competitiveness of EDGX by amending existing pricing incentives in order to attract order flow and incentivize participants to increase their participation on the Exchange, providing for additional execution opportunities for market participants and improved price transparency. Greater overall order flow, trading opportunities, and pricing transparency benefits all market participants on the Exchange by enhancing market quality and continuing to encourage Members to send orders, thereby contributing towards a robust and well-balanced market ecosystem.

Next, the Exchange believes the proposed rule changes does not impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. As previously discussed, the Exchange operates in a highly competitive market. Members have numerous alternative venues that they may participate on and direct their order flow, including other equities exchanges, off-exchange venues, and alternative trading systems. Additionally, the Exchange represents a small percentage of the overall market. Based on publicly available information, no single equities exchange has more than 17% of the market share.²⁶ Therefore, no exchange possesses significant pricing power in the execution of order flow. Indeed, participants can readily choose to send their orders to other exchange and off-exchange venues if they deem fee levels at those other venues to be more favorable. Moreover, the Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. Specifically, in Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system "has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies."²⁷ The

fact that this market is competitive has also long been recognized by the courts. In *NetCoalition v. Securities and Exchange Commission*, the D.C. Circuit stated as follows: "[n]o one disputes that competition for order flow is 'fierce.' . . . As the SEC explained, '[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution'; [and] 'no exchange can afford to take its market share percentages for granted' because 'no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers'. . . ."²⁸ Accordingly, the Exchange does not believe its proposed fee change imposes any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act²⁹ and paragraph (f) of Rule 19b-4³⁰ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

²⁸ *NetCoalition v. SEC*, 615 F.3d 525, 539 (D.C. Cir. 2010) (quoting Securities Exchange Act Release No. 59039 (December 2, 2008), 73 FR 74770, 74782-83 (December 9, 2008) (SR-NYSEArca-2006-21)).

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-100495; File No. 4-820]

Options Price Reporting Authority; Notice of Designation of a Longer Period for Commission Action on a Proposed Amendment To Modify Section 5.2(c)(iii) of the OPRA Plan Relating to Dissemination of Exchange Proprietary Data Information

July 11, 2024.

On November 8, 2023, the Cboe BZX Exchange, Inc. ("BZX Options"), Cboe Exchange, Inc. ("Cboe Options"), Cboe C2 Exchange, Inc. ("C2 Options"), and Cboe EDGX Exchange, Inc. ("EDGX Options") (collectively, the "Sponsors" or "Cboe") filed with the Securities and Exchange Commission ("Commission") a proposed amendment to the Plan for Reporting of Consolidated Options Last Sale Reports and Quotation Information ("OPRA Plan"). The proposed amendment was published for comment in the **Federal Register** on January 22, 2024.¹

On April 19, 2024, the Commission instituted proceedings pursuant to Rule 608(b)(2)(i) of Regulation NMS² under the Exchange Act to determine whether to approve or disapprove the proposed amendment or to approve the proposed amendment with any changes or subject to any conditions the Commission deems necessary or appropriate after considering public comment.³ Rule 608(b)(2)(i) of Regulation NMS provides that such proceedings shall be concluded within 180 days of the date of publication of notice of the plan or amendment and that the time for conclusion of such proceedings may be extended for up to 60 days (up to 240 days from the date of publication of notice of the plan or amendment) if the Commission determines that a longer period is appropriate and publishes the reasons for such determination or the

¹ See Options Price Reporting Authority; Notice of Filing of Proposed Amendment to Modify Section 5.2(c)(iii) of the OPRA Plan Relating to Dissemination of Exchange Proprietary Data Information, Securities Exchange Act Release No. 99345 (Jan. 16, 2024), 89 FR 3963 (Jan. 22, 2024) ("Notice"). Comments received in response to the Notice can be found on the Commission's website at <https://www.sec.gov/comments/4-820/4-820.htm>.

² 17 CFR 242.608(b)(2)(i).

³ See Options Price Reporting Authority; Order Instituting Proceedings to Determine Whether to Approve or Disapprove a Proposed Amendment To Modify Section 5.2(c)(iii) of the OPRA Plan Relating to Dissemination of Exchange Proprietary Data Information, Securities Exchange Act Release No. 99994 (Apr. 19, 2024), 89 FR 31785 (Apr. 25, 2024). Comments received in response to the Order Instituting Proceedings can be found on the Commission's website at <https://www.sec.gov/comments/4-820/4-820.htm>.

plan participants consent to a longer period.⁴ The 180th day after publication of the Notice for the proposed amendment is July 20, 2024. The Commission is extending this 180-day period.

The Commission finds that it is appropriate to designate a longer period within which to conclude proceedings regarding the proposed amendment so that it has sufficient time to consider the proposed amendment and the comments received. Accordingly, pursuant to Rule 608(b)(2)(i) of Regulation NMS,⁵ the Commission designates September 18, 2024, as the date by which the Commission shall conclude the proceedings to determine whether to approve or disapprove the proposed amendment or to approve the proposed amendment with any changes or subject to any conditions the Commission deems necessary or appropriate (File No. 4-820).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁶

J. Matthew DeLesDernier,
Deputy Secretary.
