Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. The inventory includes one partial human skull, representing one individual. The skull was discovered in a sand bar in a bend on the Missouri River in Sibley, Missouri, located in Ray County. Determinations

The MoDNR has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- There is a reasonable connection between the human remains described in this notice and The Osage Nation.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains in this notice to a requestor may occur on or after August 19, 2024. If competing requests for repatriation are received, the MoDNR must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains are considered a single request and not competing requests. The MoDNR is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.
