[RTID 0648-XE081]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad-Hoc Klamath River Fall Chinook Workgroup will hold two online meetings.

DATES: The first online meeting will be held Tuesday, August 6, 2024 and the second meeting will be held Wednesday, September 4, 2024. Both meetings will occur from 9 a.m. until 3 p.m., Pacific Daylight Time, or until business for the day concludes.

ADDRESSES: These meetings will be held online. Specific meeting information, including directions on how to join and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at 503-820-2280, extension 412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Angela Forristall, Staff Officer, Pacific Council; telephone: (503) 820-2419.

SUPPLEMENTARY INFORMATION: The primary purpose of the meeting is to discuss and further develop interim management measures, or a management framework, intended to address the response of Klamath River fall Chinook to the dynamic nature of the Klamath River environment and the available habitat immediately following dam removal, and post-dam removal until the natural environment is stabilized and the salmon population is more predictable. Additional discussions may include, but are not limited to, future meetings, workload planning, and upcoming items on the Pacific Council's agenda.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this

document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 15, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad-hoc Sacramento River Fall Chinook (SRFC) Workgroup (Workgroup) will hold a 2-day online meeting in August 2024 and a 1-day online meeting in September 2024.

DATES: The 2-day August online meeting will be held on Wednesday, August 7 and Thursday, August 8, 2024 and the 1-day September meeting will be held on Tuesday, September 3, 2024. Meetings will run from 9 a.m. until 3 p.m. Pacific Time or when business for the day concludes.

ADDRESSES: These meetings will be held online. Specific meeting information, including directions on how to join the meeting and system requirements will be provided in the meeting announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE

Ambassador Place, Suite 101, Portland, OR 97220-1384.

FOR FURTHER INFORMATION CONTACT: Angela Forristall, Staff Officer, Pacific Council; telephone: (503) 820-2419.

SUPPLEMENTARY INFORMATION: The primary purpose of the meetings is to address guidance received from the Pacific Council at their June 2024 meeting. At the August meetings, the Workgroup will likely focus on developing an outline for the Workgroup's report to the Pacific Council in November 2024 that considers new or updated tools for SRFC management. At the September meeting, the Workgroup will likely continue to develop the report and may discuss potential 2024 Salmon Methodology Review topics relevant to their tasking. Additional discussions may include, but are not limited to, future meetings, workload planning, and upcoming Council agenda items.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Kris Kleinschmidt (kris.kleinschmidt@noaa.gov; (503) 820-2412) at least 10 days prior to the meeting dates.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 15, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[RTID 0648-XE105]

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 98 Data Scoping Webinar for Gulf of Mexico Red Snapper.

SUMMARY: The SEDAR 98 assessment process of Gulf of Mexico red snapper will consist of a Data Workshop, a series of assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 98 Data scoping webinar will be held August 7, 2024, from 10 a.m. to 12 p.m., Eastern Time.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and

database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Data scoping webinar are as follows:

Participants will discuss what data may be available for use in the assessment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 16, 2024.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648-XE101]

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public online meeting.

SUMMARY: The Ecosystem-Based Management Subcommittee (SSC ES) of the Pacific Fishery Management Council's (Pacific Council) Scientific and Statistical Committee (SSC) will convene an online meeting to review the use of ecosystem risk evaluation tables

and any other Ecosystem and Climate Information for Species, Fisheries, and Fishery Management Plan (Initiative 4) materials provided by the Council's Ecosystem Workgroup. In addition, they may review new analyses conducted by the NMFS California Current Integrated Ecosystem Assessment Team that may potentially inform future annual reports to the Pacific Council on the state of the California Current Ecosystem. The SSC ES meeting is open to the public.

DATES: The SSC ES meeting will be held Monday, August 5, 2024, from 1 p.m. until 5 p.m. (Pacific Time) or until business for the day has been completed.

ADDRESSES: This meeting will be conducted as an online meeting. Specific meeting information, including the agenda and directions on how to join the meeting and system requirements, will be provided in the workshop announcement on the Pacific Council's website (see www.pcouncil.org). You may send an email to Kris Kleinschmidt (kris.kleinschmidt@noaa.gov) or contact him at (503) 820-2412 for technical assistance.

Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.

FOR FURTHER INFORMATION CONTACT: Marlene A. Bellman, Staff Officer, Pacific Council; telephone: (503) 820-2414; email: marlene.bellman@noaa.gov.

SUPPLEMENTARY INFORMATION: The purpose of the SSC ES meeting is to review a methodological framework to incorporate ecosystem risk evaluation tables in the current Council process and any intersection with the SSC's scientific uncertainty buffers and stock category designations which result from the stock assessment process. Ecosystem risk evaluation tables were developed by the Council's Ecosystem Workgroup for several example groundfish species (*i.e.* sablefish and petrale sole), and the approach was reviewed by the SSC Ecosystem-Based Management and Groundfish Subcommittees in September 2023. At this meeting, the SSC ES will review any new developments to the risk table approach, including methodological frameworks for evaluating the ecosystem, assessment uncertainty, and population dynamics considerations the risk tables contain, and provide example applications for fisheries management. In March 2024, the Pacific Council also requested a retrospective analysis of how risk tables would have impacted
