SUPPLEMENTARY INFORMATION: Because of system limitations, we are submitting this generic collection of information request on an interim basis under CMS-10434 (OMB 0938-1188). At the appropriate time we will move this request under its proper place (CMS-10398, OMB 0938-1148) and subsequently remove it from CMS-

10434 to prevent duplication. The public can monitor the status of such activities at reginfo.gov.

Following is a summary of the use and burden associated with the subject information collection(s). More detailed information can be found in the collection's supporting statement and associated materials (see **ADDRESSES**).

Generic Information Collection

1. *Title of Information Collection:* Medicaid and Children's Health Insurance Program Eligibility Processing Data Report; *Type of Information Collection Request:* Revision of a previously approved collection of information request; *Use:* The COVID-19 outbreak and implementation of Federal policies to address the public health emergency (PHE) disrupted routine Medicaid, Children's Health Insurance Program (CHIP), and Basic Health Program (BHP) eligibility and enrollment operations. Medicaid and CHIP enrollment grew to historic levels due in large part to the Medicaid continuous enrollment condition that States implemented as a condition of receiving a temporary Federal medical assistance percentage (FMAP) increase under section 6008 of the Families First Coronavirus Response Act (Pub. L. 116-127).

States have an obligation to conduct redeterminations of eligibility for all individuals enrolled in Medicaid and CHIP in compliance with all existing Federal requirements at 42 CFR 435.916 and 457.343. In March 2023, CMS identified that 35 States were non-compliant with at least one Medicaid/CHIP renewal requirement. To be eligible for temporary increased funding under the Consolidated Appropriations Act (CAA, 2023), these States were required to implement mitigation strategies or take other steps before they were able to begin unwinding. During unwinding, several States were also required to adopt mitigations when CMS identified other issues (*e.g.*, 29 States with the household auto-renewal issue). As of June 2024, most States have at least one outstanding area of non-compliance with Federal renewal requirements.

It is critical that States ensure their compliance with all Federal renewal requirements to help individuals eligible for Medicaid or CHIP successfully renew their coverage. To confirm compliance with these regulations, CMS is providing a template for States to indicate their current compliance status with renewal regulations, describe policies and processes, and identify planned mitigations for any identified

deficiencies. This template will be completed once by States, with updates provided as States with compliance deficiencies inform CMS of progress and come into compliance with requirements.

Form Number: CMS-10434 #66 (OMB control number: 0938-1188); *Frequency:* Monthly and once; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 56; *Total Annual Responses:* 1,400; *Total Annual Hours:* 21,056. Title of the Collection: Prevention Communication Formative Research.

Type of Collection: Revision.
OMB No.: 0990-0281.

Abstract: The Office of Disease Prevention and Health Promotion (ODPHP) is focused on developing and disseminating health information to the public. ODPHP faces an increasingly urgent interest in finding effective ways to communicate health information to America’s diverse population. ODPHP strives to be responsive to the needs of America’s diverse audiences while

simultaneously serving all Americans across a range of channels, from print to new communication technologies. To carry out prevention information efforts, ODPHP is committed to conducting formative and usability research to provide guidance on the development and implementation of their communication and education efforts. The information collected will be used to improve communication, products, and services that support key office initiatives including: Dietary Guidelines for Americans, Food is Medicine, Healthy People, Health Literacy, Healthy Aging, Physical Activity Guidelines for Americans, the Move Your Way Campaign and the President’s

Council on Sports, Fitness & Nutrition. ODPHP communicates through its website (www.health.gov) and through other channels including social media, print materials, interactive training modules, and reports. Data collection will be qualitative and quantitative and may include in-depth interviews, focus groups, web-based surveys, omnibus surveys, card sorting, and several forms of usability testing of materials and interactive tools to assess the public’s understanding of disease prevention and health promotion content, responses to prototype materials, and barriers to effective use.

The program is requesting a 3-year extension of the clearance.
