Amendment 55 to the Snapper Grouper FMP

The most recent stock assessment (SEDAR 68) assessed scamp and yellowmouth grouper combined due to misidentification between the two species and indicated that the stock is overfished but not subject to overfishing. In response to this assessment the Council will need to establish the Scamp Yellowmouth Grouper Complex (which entails adjusting the composition and catch levels of the Other Shallow Water Grouper Complex), establish stock determination criteria for the new complex, a rebuilding plan, annual catch limits, management measures, allocations and sector annual catch limits, and accountability measures.

BILLING CODE 3510-22-P

CONSUMER FINANCIAL PROTECTION BUREAU

[Docket No: CFPB-2024-0029]

Privacy Act of 1974; System of Records

AGENCY: Consumer Financial Protection Bureau.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Consumer Financial Protection Bureau (CFPB or Bureau) proposes to establish a new CFPB system of records titled, "CFPB.030—Nonbank Registry" (Nonbank Registry). Generally, "nonbanks" are institutions involved in the offering or provision of consumer financial products or services that are not insured depository institutions or insured credit unions (hereinafter referred to as "nonbanks"). The Nonbank Registry system of records covers information collected and maintained as part of the CFPB nonbank registration program. The Nonbank Registry enables certain nonbanks to register with the CFPB through the Bureau's Nonbank Registry portal and to provide additional required information and/or other required documents. The records maintained in the Nonbank Registry enables the CFPB to gather information from registered nonbanks; to monitor and identify consumer risks; to gather information and documents to conduct examinations of registered nonbanks subject to the CFPB's supervisory authority; and to ensure that registered nonbanks subject to the CFPB's supervisory authority are legitimate entities and able to perform their obligations to consumers,

including their obligations under Federal consumer financial law. This newly established system of records will be included in the CFPB's inventory of records systems.

DATES: Comments must be received no later than August 23, 2024. The new system of records will be effective August 23, 2024 unless the comments received result in a contrary determination.

ADDRESSES: You may submit comments, identified by the title and docket number (see above Docket No. CFPB–2024–0029), by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments. A brief summary of this document will be available at <https://www.regulations.gov/docket/CFPB-2024-0029>.

- *Email:* privacy@cfpb.gov. Include Docket No. CFPB–2024–0029 in the subject line of the email.

- *Mail/Hand Delivery/Courier:* Kathryn Fong, Chief Privacy Officer, Consumer Financial Protection Bureau, 1700 G Street NW, Washington, DC 20552, (202) 435–7058. Because paper mail in the Washington, DC area and at CFPB is subject to delay, commenters are encouraged to submit comments electronically.

All submissions must include the agency name and docket number for this notice. In general, all comments received will be posted without change to <http://www.regulations.gov>. All comments, including attachments and other supporting materials, will become part of the public record and subject to public disclosure. You should submit only information that you wish to make available publicly. Sensitive personal information, such as account numbers or Social Security numbers, should not be included.

FOR FURTHER INFORMATION CONTACT: Kathryn Fong, Chief Privacy Officer, Consumer Financial Protection Bureau, 1700 G Street NW, Washington, DC 20552; (202) 435–7058. If you require this document in an alternative electronic format, please contact CFPB_Accessibility@cfpb.gov. Please do not submit comments to this email box.

SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the CFPB is establishing a new system of records titled, “CFPB.030, Nonbank Registry.” On June 3, 2024, the CFPB published the *Registry of Nonbank Covered Persons Subject to Certain Agency and Court Orders Final Rule* (Orders Rule) pursuant to sections 1022 and 1024 of the Consumer Financial Protection Act

(CFPA) of 2010. The Orders Rule imposes specific requirements on “covered nonbanks,” as that term is defined in section 1092.201(d) of the Orders Rule. Covered nonbanks are generally required to register “covered orders,” as that term is defined in section 1092.201(e) of the Orders Rule, that remain in or take effect on or after the Orders Rule’s effective date.

The CFPB’s exercise of its nonbank registration rulemaking authority expands the category of individuals and records collected and maintained on nonbanks to include those required to register with the CFPB to enable the Bureau to monitor and reduce the risks to consumers posed by these institutions more effectively. The registry also allows the Bureau to monitor trends in enforcement and more effectively utilize Bureau resources. To this end, the CFPB has created the Nonbank Registry portal to facilitate the registration process and information collection maintained in the Nonbank Registry system of records for nonbanks that are required to register with the CFPB in accordance with current or subsequent CFPB regulations. Finally, the CFPB may publish certain information collected and maintained in the Nonbank Registry system of records as is in the public interest and in accordance with CFPB regulations.

In December 2022, the Secretary of Defense established OSC to attract and scale private capital to technologies critical to the national security of the United States. Furthermore, in 2024, Congress authorized OSC as part of the National Defense Authorization Act (NDAA) for Fiscal Year 2024. The NDAA states that OSC shall:

(a) develop, integrate, and implement capital investment strategies proven in the commercial sector to shape and scale investment in critical technologies and assets;

(b) identify and prioritize promising critical technologies and assets that require capital assistance and have the potential to benefit the DoD; and

(c) make eligible investments in such technologies and assets, such as supply chain technologies not always supported through direct investment.

Covered Technology Categories

The NDAA designates the following 31 categories as a “Covered Technology Category.”

- Advanced bulk materials (including dielectrics, alloys, polymers, and composites)
- Advanced manufacturing (including upgrades for increasing the efficiency or quality of existing production processes or for enabling commercialization of new technologies)

- Autonomous mobile robots
- Battery storage (including lithium ion, advanced lead acid, and alternate batteries, as well as fuel cells)
- Biochemicals
- Bioenergetics
- Biomass (including conversion-ready feedstock)
- Cybersecurity
- Data fabric (including integration across disparate domains)
- Decision science (including ensemble learning methods for portfolio optimization)
- Edge computing
- External communication
- Hydrogen generation and storage
- Mesh networks (including off-grid communications)
- Microelectronics assembly, testing, or packaging
- Microelectronics design and development
- Microelectronics fabrication
- Microelectronics manufacturing equipment
- Microelectronics materials
- Nanomaterials and metamaterials
- Open RAN
- Optical communications (including free space and optical fiber)
- Sensor hardware
- Solar (including power system and management components)
- Space launch
- Spacecraft
- Space-enabled services and equipment (including in-space operations and associated ground equipment)
- Synthetic biology
- Quantum computing
- Quantum security
- Quantum sensing

The NDAA authorizes OSC to provide capital assistance, defined as a “loan, loan guarantee, or technical assistance” for eligible investments. Eligible investments are those made in a technology that is (a) in a Covered Technology Category and (b) not solely utilized in defense applications. OSC is seeking public comment on the capital needs of industries and assets related to the Covered Technology Categories to inform the design of DoD Loan Program.

Specific Requests for Information

The following statements and questions cover the major topic areas for which OSC seeks comment. They are not intended to limit the topics that may be addressed. Responses may include any topic believed to inform the U.S. Government’s efforts in developing recommendations for supporting the design of the DoD Loan Program, regardless of whether the topic is included in this document.
