SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

In response to this assessment the Council will need to establish the Scamp Yellowmouth Grouper Complex (which entails adjusting the composition and catch levels of the Other Shallow Water Grouper Complex), establish stock determination criteria for the new complex, a rebuilding plan, annual catch limits, management measures, allocations and sector annual catch limits, and accountability measures.

CONSUMER FINANCIAL PROTECTION BUREAU

[Docket No: CFPB-2024-0029]

Privacy Act of 1974; System of Records

AGENCY: Consumer Financial Protection Bureau.

ACTION: Notice of a new system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the Consumer Financial Protection Bureau (CFPB or Bureau) proposes to establish a new CFPB system of records titled, "CFPB.030—Nonbank Registry" (Nonbank Registry). Generally, "nonbanks" are institutions involved in the offering or provision of consumer financial products or services that are not insured depository institutions or insured credit unions (hereinafter referred to as "nonbanks"). The Nonbank Registry system of records covers information collected and maintained as part of the CFPB nonbank registration program. The Nonbank Registry enables certain nonbanks to register with the CFPB through the Bureau's Nonbank Registry portal and to provide additional required information and/or other required documents. The records maintained in the Nonbank Registry enables the CFPB to gather information from registered nonbanks; to monitor and identify consumer risks; to gather information and documents to conduct examinations of registered nonbanks subject to the CFPB's supervisory authority; and to ensure that registered nonbanks subject to the CFPB's supervisory authority are legitimate entities and able to perform their obligations to consumers,
