If you require an accommodation under the Americans with Disabilities Act, please call (202) 245-0245.

**SUPPLEMENTARY INFORMATION:** Comments are requested concerning: (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up

costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose, or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Submitted comments will be summarized and included in the Board’s request for OMB approval.

**Description of Collection**

*Title:* Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

*OMB Control Number:* 2140-0019.

*STB Form Number:* None.

*Type of Review:* Extension without change.

*Respondents:* Customers and stakeholders of the Board.

*Number of Respondents, Frequency, Estimated Time Per Response, and Total Burden Hours:* A variety of instruments and platforms may be used to collect information from respondents. The estimated annual burden hours (277) are based on the number of collections we expect to conduct over the requested period for this clearance, as set forth in the table below.

**ESTIMATED ANNUAL REPORTING BURDEN**

Type of collection	Number of respondents	Annual frequency per response	Hours per response	Total hours

*Needs and Uses:* The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient and timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences, and expectations; provide an early warning with issues about how the Board provides service to the public; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the Board and its customers and stakeholders. They will also allow

feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and
