"Pre-auction digital service area" is defined as the geographic area within the full power station's noise-limited contour (as set forth in Public Notice, DA 15-1296, released November 12, 2015). The service area of the digital-to-digital replacement translator shall be limited to only the demonstrated loss area within the full power station's pre-auction digital service area, provided that an applicant for a digital-to-digital replacement television translator may propose a de minimis expansion of its full power pre-auction digital service area upon demonstrating that the expansion is necessary to replace a loss in its pre-auction digital service area.

The licensees must retain with their station license a description of the low pass filter or equivalent device with the manufacturer's rating or a report of measurements by a qualified individual.

Collection title: Recordkeeping Guidance Associated with Changes in Foreign Investments. Made Pursuant to Regulation K.

Collection identifier: FR 2064.

OMB control number: 7100–0109.

General description of collection: Internationally active U.S. banking organizations are expected to maintain adequate internal records to allow examiners to review compliance with the investment provisions of Regulation K. This recordkeeping guidance is what makes up the FR 2064. For each investment made under Subpart A of Regulation K, a banking organization investor should maintain internal records regarding the type of investment; the amount of the investment; the percentage ownership; activities conducted by the company and the legal authority for such activities; and whether the investment was made under general consent, prior notice, or specific consent authority. With respect to investments made under general consent authority, information also should be maintained that demonstrates compliance with the various limits set out in section 211.9 of Regulation K. These records are reviewed by examiners during examinations, allowing the examiners to determine a banking organization's compliance with the Federal Reserve Act and Subpart A of Regulation K. Monitoring banking organizations' international investments also permits the Federal Reserve to ensure that banking organizations do not expose themselves to undue risk.

Respondents: U.S. banking organizations (member banks, Edge Act and agreement corporations, and bank holding companies) that have made a foreign investment.
