Options 3, Section 17

The Exchange’s proposal to remove rule text from Options 3, Section 17(a) related to GUI functionality which is being decommissioned does not impose an undue burden on competition because no Member may purge orders at the group level. The amendment will clarify the current rule text. The proposal does not impose an undue burden on inter-market competition as other options markets may similarly copy ISE’s Kill Switch functionality.

Options 4, Section 5

The Exchange’s proposal to conform the rule text in Supplementary Material .03(e) and the table in Supplementary Material .07 of Options 4, Section 5 does not impose an undue burden on competition, rather it will bring greater clarity to the application of the strike interval for Short Term Options Series, excluding ETFs and ETNs, have an expiration more than twenty-one days from the listing date. The proposed change does not substantively amend the application of the listing rule.

The proposed technical corrections in Options 4, Section 5 to update the Supplementary Material numbering and related cross-citation in Options 4, Section 5(a) in the manner described above do not impose an undue burden on competition. The proposed changes are not competitive and are intended to bring greater clarity to the Exchange’s Rulebook and avoid potential confusion, to the benefit of investors and the public interest.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-100606; File No. SR-NYSEARCA-2024-60]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Establish Fees for the NYSE Arca Aggregated Lite Data Feed

July 26, 2024.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³

notice is hereby given that on July 11, 2024, NYSE Arca, Inc. (“NYSE Arca” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish fees for the NYSE Arca Aggregated Lite data feed. The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the NYSE Arca Equities Proprietary Market Data Fees Schedule (“Fee Schedule”) and establish fees for the NYSE Arca Aggregated Lite (“NYSE Arca Agg Lite”) data feed,⁴ effective July 11, 2024.⁵

In summary, the NYSE Arca Agg Lite is a NYSE Arca-only frequency-based depth of book market data feed of the NYSE Arca's limit order book for up to ten (10) price levels on both the bid and offer sides of the order book for

securities traded on the Exchange and for which the Exchange reports quotes and trades under the Consolidated Tape Association (“CTA”) Plan or the Nasdaq/UTP Plan. The NYSE Arca Agg Lite is a compilation of limit order data that the Exchange provides to vendors and subscribers. The NYSE Arca Agg Lite includes depth of book order data as well as security status messages. The security status message informs subscribers of changes in the status of a specific security, such as trading halts, short sale restriction, etc. In addition, the NYSE Arca Agg Lite includes order imbalance information prior to the opening and closing of trading.

Background

The Exchange operates in a highly competitive market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”⁶

While Regulation NMS has enhanced competition, it has also fostered a “fragmented” market structure where trading in a single stock can occur across multiple trading centers. When multiple trading centers compete for order flow in the same stock, the Commission has recognized that “such competition can lead to the fragmentation of order flow in that stock.”⁷ Indeed, cash equity trading is currently dispersed across 16 exchanges,⁸ numerous alternative trading systems,⁹ and broker-dealer internalizers and wholesalers, all competing for order flow. Based on publicly-available information, no single exchange currently has more than
