

consultation with the DoD Office of the General Counsel, has determined in writing that the meeting will be closed to the public because it will consider matters covered by section 552b(c)(1) of title 5, U.S.C. The determination is based on the consideration that it is expected that discussions throughout will involve classified matters of national security concern. Such classified material is so intertwined with the unclassified material that it cannot reasonably be segregated into separate discussions without defeating the effectiveness and meaning of the overall meeting. To permit the meeting to be open to the public would preclude discussion of such matters and would greatly diminish the ultimate utility of the DSB's findings and recommendations to the Secretary of Defense and to the DUSD(R&E).

Written Statements: In accordance with section 1009(a)(3) of title 5, U.S.C. and sections 102–3.105(j) and 102–3.140 of title 41, CFR, interested persons may submit a written statement for consideration by the DSB at any time regarding its mission or in response to

the stated agenda of a planned meeting. Individuals submitting a written statement must submit their statement to the DSB DFO at the email address provided above in the **FOR FURTHER INFORMATION CONTACT** section at any point; however, if a written statement is not received at least three calendar days prior to a meeting, which is the subject of this notice, then it may not be provided to or considered by the DSB until a later date.

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States—AIM-9X Block II Sidewinder Missiles

The Taipei Economic and Cultural Representative Office in the United States (TECRO) has requested to buy one hundred (100) AIM-9X Block II Sidewinder tactical missiles and four (4) AIM-9X Block II tactical Guidance Units. Also included are containers; spare and repair parts; support and test equipment; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor representatives' technical assistance; engineering and logistics support services; and other related

elements of logistics support. The estimated total cost is \$85.6 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will contribute to the modernization of the recipient's capability to meet current and future threats as it will be able to employ a highly reliable and effective system to increase their warfighting effectiveness, as needed, which can counter or deter aggressions by demonstrated precision against air targets. This equipment will contribute to the recipient's goal of updating its military capability while further enhancing interoperability with the United States and other allies. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles and Defense, Tucson, AZ. The recipient has requested offsets. At this time, agreements are undetermined and will be defined in negotiations between the recipient and the contractor.

Implementation of this proposed sale will not require the permanent assignment of any additional U.S. Government or contractor representatives to recipient. Support teams will travel to recipient on a temporary basis.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-46

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The AIM-9X Block II Sidewinder Missile represents a substantial increase in missile acquisition and kinematics performance over the AIM-9M and replaces the AIM-9X Block I Missile configuration. The missile includes a high off-boresight seeker, enhanced countermeasure rejection capability, low drag/high angle of attack airframe

and the ability to integrate with the Helmet Mounted Cueing System.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems, which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.
