

threatened and endangered species are promulgated at 50 CFR 222.307.

Species Covered in This Notice

The following species are included in the conservation plan and permit application: Atlantic (*Acipenser oxyrinchus*) and shortnose (*A. brevirostrum*) sturgeon.

Background

On September 29, 2023, notice was published in the **Federal Register** (88 FR 67249) that a request for a permit for the incidental take of shortnose and Atlantic sturgeon associated with the otherwise lawful education trawl in the Hudson River by Clearwater, Inc. No comments were received during the 30 day public comment period. The requested permit has been issued under the authority of the ESA of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

Permit No. 27686

The permit authorizes take of ESA-listed shortnose and Atlantic sturgeon that are caught incidental to educational trawls in the Hudson River. Clearwater will not exceed take of 10 sturgeon, with 1 or more a year (combination of shortnose and Atlantic Sturgeon) over the 10 year permit. There will be one lethal take permitted over the 10 year permit.

Conservation Plan

Section 10 of the ESA specifies that no permit may be issued unless an applicant submits an adequate conservation plan. The conservation plan prepared by Clearwater describes measures designed to minimize and mitigate the impacts of any incidental take of ESA-listed shortnose sturgeon and Atlantic sturgeon. Clearwater will regularly communicate with New York State Department of Environmental Conservation to avoid known sturgeon habitat and spawning grounds. Clearwater will avoid trawling the river at Poughkeepsie and Norrie Point due to known sensitive habitat. Clearwater will use small otter trawls (38.1 × 76.2 centimeter) doors weighing 50 pounds and short tow times (≤5 minutes). Beach seines, which allow for targeted catch, will be used where practicable (*e.g.*, away from urban areas and where tides allow). If Clearwater incidentally captures a sturgeon in its nets, it will follow protocols for safe handling and immediately release any sturgeon caught. Clearwater will maintain a detailed log of all gear sets and will

submit to NMFS incidental and annual reports of incidental capture, if any, of listed sturgeon.

National Environmental Policy Act

Issuing an ESA section 10(a)(1)(B) permit constitutes a Federal action requiring NMFS to comply with the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) as implemented by 40 CFR parts 1500–1508 and NOAA Administrative Order 216–6, Environmental Review Procedures for Implementing the National Policy Act (1999). NMFS has determined that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement. This action falls within the B3 category: issuance of, and amendments to, “low effect” Incidental Take Permits and their supporting “low effect” Habitat Conservation Plans under section 10(a)(1)(B) of the ESA. Additionally there are no extraordinary circumstances with the potential for significant environmental effects that would preclude the issuance of this permit type from being categorically excluded.

Background: The CAFTA–DR provides a list in Annex 3.25 for fabrics, yarns, and fibers that the Parties to the CAFTA–DR have determined are not available in commercial quantities in a timely manner in the territory of any Party. The CAFTA–DR provides that this list may be modified pursuant to Article 3.25.4, when the United States determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party. *See* Annex 3.25 of the CAFTA–DR; *see also* section 203(o)(4)(C) of the CAFTA–DR Implementation Act.

The CAFTA–DR Implementation Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamation 7987, the President delegated to CITA the authority under section 203(o)(4) of CAFTA–DR Implementation Act for modifying the Annex 3.25 list. Pursuant to this authority, on September 15, 2008, CITA published modified procedures it would follow in considering requests to modify the Annex 3.25 list of products determined to be not commercially available in the territory of any Party to the CAFTA–DR (*Modifications to Procedures for Considering Requests Under the Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement*, 73 FR 53200) (“CITA’s Procedures”).

No interested entity submitted a Response to the Request advising CITA of its objection to the Request with an offer to supply the subject product in accordance with CITA's Procedures.

In accordance with section 203(o)(4)(C) of the CAFTA-DR Implementation Act, and section 8(c)(2) of CITA's Procedures, as no interested entity submitted a Response objecting to the Request and providing an offer to supply the subject product in accordance with CITA's Procedures, CITA has determined to add the specified fabric to the list in Annex 3.25 of the CAFTA-DR.

The subject product has been added to the list in Annex 3.25 of the CAFTA-DR Agreement in unrestricted quantities. A revised list has been posted on the dedicated website for CAFTA-DR Commercial Availability proceedings, at <https://otexaprod.trade.gov/otexacapublicsite/shortsupply/cafta>.
