j. *Cooperating agencies*: With this notice, the Commission is inviting Federal, State, local, and Tribal agencies with jurisdiction and/or special expertise with respect to environmental issues affected by the proposal, that wish to cooperate in the preparation of any environmental document, if applicable, to follow the instructions for filing such requests described in item k below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of any environmental document cannot also intervene. See 94 FERC ¶ 61,076 (2001).

k. *Deadline for filing comments, motions to intervene, and protests*: August 30, 2024.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

l. *Description of Request*: The applicant proposes to surrender its project license. Certain project works

are not operable, and the applicant states the cost of needed repairs to the generating equipment is significant and infeasible. To surrender the project, the applicant proposes to: (1) disconnect the generating units from the utility interconnection point; (2) disconnect the turbine drive shafts, and offer the equipment for sale; (3) install service lines to provide power for future dam operation and security needs; (4) close the intake structure at the north abutment; (5) remove transformers; (6) remove any hydraulic fluids from project equipment; and (7) lock and secure the powerhouse. The turbine-generator units may remain in place until sold. No major physical changes to any project features are planned and no ground disturbance would occur under this proposal. The dam would remain in place.
