M2M or the “FHA-Insured Multifamily Housing Mortgage and Housing Assistance Restructuring Program” was originally authorized by Title V of the Departments of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations Act of 1998 (Pub. L. 105-65, 111 Stat. 1384, October 27, 1997). Title V created a statutory program directed at FHA-insured multifamily projects that have project-based Section 8 contracts with above-market rents.

The information collection is used to determine the eligibility of FHA-insured or formerly insured multifamily properties for participation in the M2M program and the terms on which such participation should occur. The collection is also used to structure the closing of debt restructures that are finalized under the program, to track the post-closing performance of the restructures, to evaluate the performance of the Agency's Participating Administrative Entities (PAEs) in undertaking restructures on the Agency's behalf as the Agency agent, and to facilitate subsequent transactions involving the restructured properties under the Post-M2M program. Post-M2M is an extended component of the M2M program and addresses the processing of owner requests to refinance or to sell a property that has

received the benefits of a debt restructuring under M2M or M2M Program's predecessor program, the Portfolio Reengineering Demonstration Program (Demo Program).
