

Women Reauthorization Act, Public Law 113–4. The Task Force operates under the provisions of the Federal Advisory Committee Act of 1972, as amended (codified at 5 U.S.C. chapter 10).

The Deputy Attorney General has determined that the reestablishment of the Task Force is necessary and in the public interest and will provide information that will assist the National Institute of Justice (NIJ) to develop and implement a program of research on violence against American Indian and Alaska Native women, including domestic violence, dating violence, sexual assault, stalking, murder and sex trafficking. The research will evaluate the effectiveness of the Federal, State, and Tribal response to violence against American Indian and Alaska Native women and will propose recommendations to improve these responses. Title IX of VAWA 2005 also required the Attorney General to establish a Task Force to assist NIJ with development of the research study and the implementation of the recommendations.

The Attorney General, acting through the Director of the Office on Violence Against Women, originally established the Task Force on March 31, 2008. The charter to reestablish the Task Force was filed with the Agency on June 18, 2024 and was filed with Congress on July 11, 2024. The charter was re-filed with Congress with a technical amendment on July 29, 2024. The Task Force is comprised of representatives from national Tribal domestic violence and sexual assault nonprofit organizations, Tribal governments, and national Tribal organizations. Task Force members, with the exception of travel and per diem for official travel, shall serve without compensation.

The Deputy Director, Tribal Affairs Division, Office on Violence Against Women, shall serve as the Designated Federal officer for the Task Force.

Rosemarie Hidalgo,

Director, Office on Violence Against Women.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC received a license renewal application (LRA) from Powertech (USA) Inc., dated March 4, 2024, (ADAMS Package Accession No. ML24081A108) requesting renewal of Source and Byproduct Materials License No. SUA-1600. This license authorizes Powertech (USA) Inc. to operate the Dewey-Burdock Project, which is a uranium recovery facility that has not been constructed. The Dewey-Burdock Project is located in Fall River and Custer Counties, South Dakota. Powertech (USA) Inc. submitted the application, pursuant to part 2 and part 40 of title 10 of the *Code of Federal Regulations* (10 CFR).

The NRC's staff has determined that Powertech (USA) Inc. has submitted sufficient information to enable the staff to undertake a review of the application, and that the application is, therefore, acceptable for docketing. The current docket number, 40-9075, for license SUA-1600, will be retained. The determination to accept the LRA for docketing does not constitute a determination that a renewed license should be issued and does not preclude the NRC staff from requesting additional information as the review proceeds.

Before issuance of the requested renewed license, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules
