DEPARTMENT OF ENERGY

[GDO Docket No. EA–475–A]

Application for Renewal of Authorization To Export Electric Energy; Idaho Power Company

AGENCY: Grid Deployment Office, Department of Energy.

ACTION: Notice of application.

SUMMARY: Idaho Power Company (Idaho Power or Applicant) has applied for renewed authorization to transmit electric energy from the United States to Canada pursuant to the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before September 11, 2024.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed by electronic mail to *Electricity.Exports@hq.doe.gov*.

FOR FURTHER INFORMATION CONTACT: Janessa Zucchetto, (240) 474–8226, *Electricity.Exports@hq.doe.gov*.

SUPPLEMENTARY INFORMATION: The United States Department of Energy (DOE) regulates electricity exports from the United States to foreign countries in accordance with section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)) and regulations thereunder (10 CFR 205.300 *et seq.*). Sections 301(b) and 402(f) of the DOE Organization Act (42 U.S.C. 7151(b) and 7172(f)) transferred this regulatory authority, previously exercised by the now-defunct Federal Power Commission, to DOE.

Section 202(e) of the FPA provides that an entity which seeks to export electricity must obtain an order from DOE authorizing that export (16 U.S.C. 824a(e)). On April 10, 2023, the authority to issue such orders was delegated to the DOE's Grid Deployment Office (GDO) under Delegation Order No. S1–DEL–S3–2023 and Redefinition Order No. S3–DEL–GD1–2023.

On July 18, 2019, DOE issued Order No. EA–475 authorizing Idaho Power to transmit electric energy from the United States to Canada for a term of five years. On July 1, 2024, Idaho power filed an Application (Application or App.) for renewal of its export authority for a five-year term. App. at 1.

According to the Application, Idaho Power is “a regulated electrical power utility engaged in the business of generating, purchasing, transmitting, and distributing electrical energy.” *Id.* at 2. The Applicant states that it is incorporated under the laws of Idaho, a wholly owned subsidiary of IDACORP,

Inc., and authorized to operate in Idaho and Oregon. *Id.*

The Applicant states that it “buys and sells surplus energy pursuant to voluntary bilateral contracts with electric utilities and other suppliers within the United States.” *Id.* Additionally, the Applicant represents that it “will export excess energy to Canada by making all necessary commercial arrangements, obtaining sufficient transmission capacity to wheel the exported energy to the border system, and coordinating with all parties as required by applicable market rules and the reliability standards implemented by North American Electric Reliability Corporation (NERC).” *Id.* at 3. Idaho Power further states that it “agrees to abide by the export limits on any border facility to which it transports the excess energy.” *Id.* Idaho Power asserts that its proposed exports “will not impair its ability to meet native load demands, regional load obligations, or prospective wholesale power-supply responsibilities” or “affect its ability to maintain appropriate reserve levels of energy.” App. at 3. Accordingly, Idaho Power states that its “export of power will not impair the sufficiency of the Electric power supply in the United States or the reliability of the grid.” *Id.*

The existing international transmission facilities to be utilized by the Applicant have been previously authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties. *See id.* at Exhibit C.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the Application at the email address provided previously. Protests should be filed in accordance with Rule 211 of FERC's Rules of Practice and Procedure (18 CFR 385.211). Any person desiring to become a party to this proceeding should file a motion to intervene at the previously provided email address in accordance with FERC Rule 214 (18 CFR 385.214).

Comments and other filings concerning Idaho Power's Application should be clearly marked with GDO Docket No. EA–475–A. Additional copies are to be provided directly to Lisa O'Hara, Idaho Power Company, 1221 West Idaho Street, Boise, Idaho 83702, *lohara@idahopower.com*, and Jaren Wieland, 512 W Idaho Street, Suite 103, Boise, Idaho 83702, *jaren.wieland@mooneywieland.com*.

A final decision will be made on the requested authorization after the environmental impacts have been

evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after DOE evaluates whether the proposed action will have an adverse impact on the sufficiency of supply or reliability of the United States electric power supply system.

Copies of this Application will be made available, upon request, by accessing the program website at <https://www.energy.gov/gdo/pending-applications-0> or by emailing Electricity.Exports@hq.doe.gov.

Signing Authority: This document of the Department of Energy was signed on August 2, 2024, by Maria Robinson, Director, Grid Deployment Office, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on August 7, 2024.

Treana V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-11784-01-OMS]

Privacy Act of 1974; System of Records

AGENCY: Office of the Administrator, Office of the Executive Secretariat, Environmental Protection Agency (EPA).

ACTION: Notice of a modified system of records.

SUMMARY: The U.S. Environmental Protection Agency's (EPA) Office of the Administrator, Office of the Executive Secretariat is giving notice that it proposes to modify a system of records pursuant to the provisions of the Privacy Act of 1974. EPA-22, the agency's correspondence tracking system formerly known as the Correspondence Management System is being replaced by a new application called Quill, and the SORN is being

further modified to include additional workflow processes and reflect corresponding updates.

DATES: Persons wishing to comment on this system of records notice must do so by September 11, 2024. New or Modified routine uses for this modified system of records will be effective September 11, 2024.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OEI-2004-0003, by one of the following methods:

Federal eRulemaking Portal: <https://www.regulations.gov>. Follow the online instructions for submitting comments.

Email: docket_oms@epa.gov. Include the Docket ID number in the subject line of the message.

Fax: (202) 566-1752.

Mail: OMS Docket, Environmental Protection Agency, Mail Code: 2822T, 1200 Pennsylvania Avenue NW, Washington, DC 20460.

Hand Delivery: OMS Docket, EPA/DC, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20460. Such deliveries are accepted only during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA-HQ-OEI-2004-0003. The EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <https://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Controlled Unclassified Information (CUI) or other information for which disclosure is restricted by statute. Do not submit information that you consider to be CUI or otherwise protected through <https://www.regulations.gov>. The <https://www.regulations.gov> website is an "anonymous access" system for the EPA, which means the EPA will not know your identity or contact information. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your comment. If you send an email comment directly to the EPA without going through <https://www.regulations.gov>, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet.

Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about the EPA public docket, visit the EPA Docket Center homepage at <https://www.epa.gov/dockets>.

Docket: All documents in the docket are listed in the <https://www.regulations.gov> index. Although listed in the index, some information is not publicly available, e.g., CUI or other information for which disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in <https://www.regulations.gov> or in hard copy at the OMS Docket, EPA/DC, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20460. SUPPLEMENTARY INFORMATION: The EPA is updating EPA-22, its correspondence tracking and workflow management application and is replacing the legacy application with a new system called Quill. Quill is designed to track, route and store incoming and outgoing agency correspondence from and to members of the public, private, and governmental sectors. While correspondence processing is Quill's main function, other workflow processes will be tracked in this system as well, including Federal Advisory Committee Act (FACA) packages and inquiries submitted through the EPA's public-facing websites. EPA-22 is also being modified to reflect corresponding updates to the system, including system owner and location. (*Note:* Two categories of correspondence that will not, in most cases, be logged into the system are (1) comments to a docket, and (2) Freedom of Information and Privacy Act requests. The Agency maintains separate applications to log and track such correspondence.)
