BILLING CODE 4331–21–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management [Docket No. BOEM–2023–0065]

Notice of Availability of a Final Environmental Assessment for Commercial Wind Lease Issuance on the Pacific Outer Continental Shelf, Oregon

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of an environmental assessment (EA) and its finding that possible wind energy-related leasing, right-of-way and right of use issuance, site assessment, and site characterization activities on the U.S. Pacific Outer Continental Shelf (OCS) offshore Oregon (the Proposed Action) will not significantly impact the human environment. The EA will inform BOEM's decision whether to issue wind energy leases on the OCS offshore the U.S. Pacific, Oregon.

ADDRESSES: The final EA and associated information are available on BOEM's website at: www.boem.gov/oregonea.

FOR FURTHER INFORMATION CONTACT: Lisa Gilbane, Chief, Environmental Analysis Section, Bureau of Ocean Energy Management, Camarillo, California Office, 760 Paseo Camarillo, Suite 102, Camarillo, CA 93010, (805) 384–6387 or lisa.gilbane@boem.gov.

SUPPLEMENTARY INFORMATION: The final EA analyzes the potential impacts from the Proposed Action, which involves BOEM issuing up to two commercial wind energy leases in the Oregon Wind Energy Areas (WEAs) and granting associated rights-of-way (ROWs) and rights-of-use and easement (RUEs) offshore the State of Oregon. A BOEM-issued lease provides lessees the

exclusive right to submit site assessment and construction and operations plans to BOEM for possible approval. The EA considers the reasonably foreseeable environmental consequences associated with site characterization activities (geophysical, geotechnical, archaeological, and biological surveys) and site assessment activities (including the installation and operation of meteorological buoys) which are the types of activities that foreseeably follow BOEM's issuance of the leases, ROWs, and RUEs. BOEM prepared an EA for this proposed action to inform its planning and decision-making (40 CFR 1501.5(b)).

Alternative: In addition to the Proposed Action, BOEM considered a No Action Alternative. Under the No Action Alternative, BOEM would not issue commercial wind energy leases, ROWs, or RUEs in the two Oregon WEAs. BOEM's preferred alternative is the Proposed Action.

Finding of no significant impact: After carefully considering the alternatives and comments from the public and cooperating and consulting agencies on the draft EA, BOEM finds that approval of two commercial wind energy leases in the Oregon WEAs, and ROWs and RUEs associated with the lease areas, would not significantly impact the environment.

Availability of the final EA: The final EA and associated information are available on BOEM's website www.boem.gov/oregonea.

Authority: 42 U.S.C. 4231 *et seq.* (National Environmental Policy Act, as amended) and 40 CFR 1506.6.

Douglas Boren,

Pacific Regional Director, Bureau of Ocean Energy Management.

BILLING CODE 4340–98–P

INTERNATIONAL TRADE COMMISSION

Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has received a complaint entitled *Certain Hydrodermabrasion Systems and Components Thereof II, DN 3766*; the Commission is soliciting comments on any public interest issues raised by the complaint or

complainant's filing pursuant to the Commission's Rules of Practice and Procedure.

FOR FURTHER INFORMATION CONTACT: Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone (202) 205–2000. The public version of the complaint can be accessed on the Commission's Electronic Document Information System (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov.

General information concerning the Commission may also be obtained by accessing its internet server at United States International Trade Commission (USITC) at <https://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's Electronic Document Information System (EDIS) at <https://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission has received a complaint and a submission pursuant to § 210.8(b) of the Commission's Rules of Practice and Procedure filed on behalf of HydraFacial LLC f/k/a Edge Systems LLC on August 8, 2024. The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain hydrodermabrasion systems and components thereof II. The complaint names as respondents: Luvo Medical Technologies Inc. of Canada; Clarion Medical Technologies, Inc. of Canada; Healthcare Markets, Inc. d/b/a Powered by MRP of Park City, UT; Medical Purchasing Resource, LLC of Little Elm, TX; Bio-Infusions USA Inc. of Seminole, FL; MIRamedtech UG of Germany; eMIRamed USA, LLC of Irvine, CA; and MIRamedtech SP. Z.O.O. of Poland. The complainant requests that the Commission issue a limited exclusion order, cease and desist orders, and impose a bond upon respondents' alleged infringing articles during the 60-day Presidential review period pursuant to 19 U.S.C. 1337(j).

Proposed respondents, other interested parties, members of the public, and interested government agencies are invited to file comments on any public interest issues raised by the complaint or § 210.8(b) filing. Comments should address whether issuance of the relief specifically
