Bureau of Land Management

[BLM_NV_FRN_MO# 4500180226]

Public Land Order No. 7948; Extension of Public Land Order No. 7613; Withdrawal of Public Lands for a Runway Safe Zone, Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This Public Land Order (PLO) extends the duration of the withdrawal created by PLO No. 7613, which would otherwise expire on August 17, 2024, for an additional 20-year period. PLO No. 7613 withdrew 40 acres of public lands from settlement, sale, location, or entry under the general land laws, including the United States mining laws, subject to valid existing rights, for a period of 20 years, for the United States Air Force to protect a runway safe zone at Nellis Air Force Base located in Las Vegas, Nevada.

DATES: This PLO takes effect on August 14, 2024.

FOR FURTHER INFORMATION CONTACT: Eric Benavides, Realty Specialist, BLM Las Vegas Field Office, at (702) 515–5144, email: ebenavides@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or Tele Braille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The purpose for which the withdrawal was first made requires this extension in order to protect a runway safe zone at Nellis Air Force Base. The lands withdrawn by PLO No. 7613 on August 18, 2004 (69 FR 51320) and serialized as N–74668 (NVNV106080782) are located wholly within Nellis Air Force Base, a secured military installation, at the northern end of an active runway; public access to these lands has been restricted since the 1950s.

Order

By virtue of the authority vested in the Secretary of the Interior by section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, PLO No. 7613, which withdrew 40 acres of public lands from settlement, sale, location, or entry under the general land laws, including the United States mining laws, subject to valid existing rights, for the United States Air Force to protect a runway safe zone at Nellis Air Force Base, is hereby extended for an additional period of 20 years.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of land under lease, license, or permit, or governing the disposal of their mineral

or vegetative resources other than under the mining laws.

3. This withdrawal will expire 20 years from the effective date of this Order, unless, as a result of a review conducted before the expiration date pursuant to section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f), the Secretary determines that the withdrawal shall be extended.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management [Docket No. BOEM–2023–0065]

Notice of Availability of a Final Environmental Assessment for Commercial Wind Lease Issuance on the Pacific Outer Continental Shelf, Oregon

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of availability.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of an environmental assessment (EA) and its finding that possible wind energy-related leasing, right-of-way and right of use issuance, site assessment, and site characterization activities on the U.S. Pacific Outer Continental Shelf (OCS) offshore Oregon (the Proposed Action) will not significantly impact the human environment. The EA will inform BOEM's decision whether to issue wind energy leases on the OCS offshore the U.S. Pacific, Oregon.

ADDRESSES: The final EA and associated information are available on BOEM's website at: www.boem.gov/oregonea.

FOR FURTHER INFORMATION CONTACT: Lisa Gilbane, Chief, Environmental Analysis Section, Bureau of Ocean Energy Management, Camarillo, California Office, 760 Paseo Camarillo, Suite 102, Camarillo, CA 93010, (805) 384–6387 or lisa.gilbane@boem.gov.

SUPPLEMENTARY INFORMATION: The final EA analyzes the potential impacts from the Proposed Action, which involves BOEM issuing up to two commercial wind energy leases in the Oregon Wind Energy Areas (WEAs) and granting associated rights-of-way (ROWs) and rights-of-use and easement (RUEs) offshore the State of Oregon. A BOEM-issued lease provides lessees the

exclusive right to submit site assessment and construction and operations plans to BOEM for possible approval. The EA considers the reasonably foreseeable environmental consequences associated with site characterization activities (geophysical, geotechnical, archaeological, and biological surveys) and site assessment activities (including the installation and operation of meteorological buoys) which are the types of activities that foreseeably follow BOEM's issuance of the leases, ROWs, and RUEs. BOEM prepared an EA for this proposed action to inform its planning and decision-making (40 CFR 1501.5(b)).

Alternative: In addition to the Proposed Action, BOEM considered a No Action Alternative. Under the No Action Alternative, BOEM would not issue commercial wind energy leases, ROWs, or RUEs in the two Oregon WEAs. BOEM's preferred alternative is the Proposed Action.

Finding of no significant impact: After carefully considering the alternatives and comments from the public and cooperating and consulting agencies on the draft EA, BOEM finds that approval of two commercial wind energy leases in the Oregon WEAs, and ROWs and RUEs associated with the lease areas, would not significantly impact the environment.

Availability of the final EA: The final EA and associated information are available on BOEM's website www.boem.gov/oregonea.

Authority: 42 U.S.C. 4231 *et seq.* (National Environmental Policy Act, as amended) and 40 CFR 1506.6.

Douglas Boren,

Pacific Regional Director, Bureau of Ocean Energy Management.
