

- The instruction which states that service providers should provide the percentage of handset models that they offered for the reporting period that were hearing aid-compatible will be modified by changing the word “should” to “must,” and “must” will be bolded for emphasis. This instruction will also reference the information icon discussed above that will be added to this question for clarification purposes only.

- The instruction which states that service providers must post on their publicly accessible websites certain hearing aid compatibility information required by the Commission’s rules will be modified by bolding the existing word “must” for emphasis. This instruction will also reference the information icon discussed above that will be added to this question for clarification purposes only.

- The instruction which states that service providers who are not in full compliance with the Commission’s hearing aid compatibility rules must provide an attachment explaining their non-compliance will be modified by bolding the existing word “must” for emphasis.

The Commission is not seeking approval of any changes to FCC Form 655 used by handset manufacturers to show compliance with the Commission’s hearing aid compatibility requirements. The Commission is proposing to modify the form’s instructions to provide the following clarifications:

- The filing window for the form opens on the first business day in July each year and closes on July 31, unless July 31 is not a business day. In this case, the filing window closes on the first business day after July 31. This change conforms the form’s instructions concerning the filing window with the information on the Commission’s wireless hearing aid compatibility website concerning the filing window.

- The instruction which states that handset manufacturers must post on their publicly accessible websites certain hearing aid compatibility information required by the Commission’s rules will be modified by bolding the existing word “must” for emphasis.

These minor, non-substantive modifications the Commission is proposing to the existing information collection will provide clarity and promote efficiency. These changes will not affect the burden estimate or compliance cost that OMB has previously approved for this information collection. After the 60-day comment period expires, the

Commission will submit the information collection to OMB to obtain a full three-year clearance.
