II. Discussion

On June 18, 2024, PFWN submitted an application to the NRC for a license to export treated radioactive waste of Mexican origin. The source of the waste is the Comisión Federal de Electricidad (CFE) Laguna Verde Nuclear Power Plant (CFE LVNPP), located in Veracruz, Mexico. PFWN intends to receive shipment of incoming waste consisting

of liquid, solids, contaminated personal protective equipment, paper, plastic, glass, and combustible waste generated by the research projects at the power plant. PFNW will treat the waste by thermal processing, stabilization, and solidification. Residual ash, residual metal, and noncombustible material would then be exported back to Mexico for disposal. Resultant contaminants to be exported will include cobalt 60 (Co-60), cesium-137 (Cs-137), tritium (H-3), manganese-54 (Mn-54), zinc-65 (Zn-65), cobalt-58 (Co-58), carbon-14 (C-14), iron-55 (Fe-55), nickel-63 (Ni-63), strontium-90 (Sr-90), technetium-99 (Tc-99), plutonium-241 (Pu-241), and americium-241 (Am 241) in the form of residual ash and residual metal or non-combustible material, not to exceed 0.119 terabecquerels (TBq). PFNW requests an expiration date of December 1, 2030.

In accordance with paragraph 110.70(b) of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is providing notice of the receipt of the

application; providing the opportunity to submit written comments concerning the application; and providing the opportunity to request a hearing or petition for leave to intervene, for a period of 30 days after publication of this notice in the **Federal Register**.

A hearing request or petition for leave to intervene must include the information specified in 10 CFR 110.82(b). Any request for hearing or petition for leave to intervene shall be served by the requestor or petitioner in accordance with 10 CFR 110.89(a), either by delivery, by mail, or filed with the NRC electronically in accordance with the NRC's E-Filing rule (72 FR 49139; August 28, 2007, as amended at 77 FR 46562; August 3, 2012). Detailed guidance on electronic submissions is located in the "Guidance for Electronic Submissions to the NRC" (ADAMS Accession No. ML13031A056) and on the NRC's public website at <https://www.nrc.gov/site-help/e-submittals.html>.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at Hearing.Docket@nrc.gov, or by telephone at 301-415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.
