Category I and II fisheries are those identified by National Marine Fisheries Service (NMFS) on the MMPA List of Fisheries as having either frequent or occasional takings of marine mammals. All states have integrated the NMFS registration process into the existing state fishery registration process and vessel owners do not need to file a separate federal registration. If applicable, vessel owners will be notified of this simplified registration process when they apply for their state or Federal permit or license. A valid certificate of authorization protects the vessel owner from prosecution under the MMPA for violation of the moratorium on taking marine mammals. Notice of Modification to the Special Use Permit (SUP) Category for the Continued Presence of Commercial Submarine Cables Within the National Marine Sanctuary System

AGENCY: Office of National Marine Sanctuaries (ONMS), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice; request for public comments.

SUMMARY: NOAA hereby gives public notice that ONMS is modifying the special use permit (SUP) category for the continued presence of commercial submarine cables on or within a national marine sanctuary's submerged lands so that, for a two-year period, the SUP category does not apply to commercial submarine cables in any new sanctuaries designated after August 16, 2024. In addition, NOAA is seeking public comment on the use of the SUP category for the continued presence of commercial submarine cables, potential modifications to the SUP category, and input on developing an updated policy and permit guidance document for submarine cable projects. This temporary suspension affords NOAA time to consider and respond to public comment, evaluate the need for updating the SUP category and permit guidance document, publish a draft update of the SUP category and/or the permit guidance document for further public comment, and finalize any updates to the SUP category and/or permit guidance document, if needed. During this temporary two-year suspension, NOAA will not require or issue SUPs for the continued presence of commercial submarine cables on or within the submerged lands of any new sanctuaries designated after August 16,
