**Request for Public Input About Implementation of the Sustainability Targets in Agriculture to Incentivize Natural Solutions Act**

**AGENCY:** Natural Resources Conservation Service, USDA.

**ACTION:** Request for information.

**SUMMARY:** The Natural Resources Conservation Service (NRCS) requests public input for USDA to use all available tools to support climate-smart agriculture and forestry and advance conservation priorities on working lands. The Sponsoring USDA Sustainability Targets in Agriculture to Incentivize Natural Solutions Act of 2021 (the SUSTAINS Act) was signed into law as part of the Consolidated Appropriations Act of 2023. The SUSTAINS Act expands USDA's authority to accept contributions of private funds to support existing conservation programs and provides additional guidelines for those contributions. Specifically, the SUSTAINS Act provides an opportunity for the private sector to partner with USDA in engaging farmers and ranchers in conservation initiatives, including expanding conservation practices to sequester carbon, improve wildlife habitat, protect sources of drinking water, and address other natural resource priorities.

**SUPPLEMENTARY INFORMATION:**

**Background**

In Title I of Division HH of the Consolidated Appropriations Act, 2023 (Pub. L. 117–328), section 202, (the SUSTAINS Act amended section 1241(f) of the Food Security Act of 1985 (16 U.S.C. 3841(f))). The SUSTAINS Act authorized NRCS to accept contributions of non-Federal funds (contribution account authority) to support a range of covered existing conservation programs, as detailed below.

The original authority for the contribution account was enacted as part of the Food, Conservation, and Energy Act of 2008, and included all programs authorized under subtitle D of title XII of the Food Security Act of 1985 except the Conservation Reserve Program. Due to changes under the Agricultural Act of 2014, the authority of the contribution account became limited to supporting only the Environmental Quality Incentives Program and the Conservation Stewardship Program. The SUSTAINS Act expanded the authority to include other conservation programs, including:

- the Agricultural Conservation Easement Program;
- the Regional Conservation Partnership Program;
- the Emergency Watersheds Protection Program;
- the Healthy Forests Reserve Program; and
