

found at <https://www.gsa.gov/perdiem>. GSA bases the maximum lodging allowance rates on average daily rate, a widely accepted lodging industry measure, less five percent. If a maximum lodging allowance rate and/or a meals and incidental expenses (M&IE) per diem reimbursement rate is insufficient to meet necessary expenses in any given CONUS location, Federal executive agencies can request that GSA review that location. More information on rate setting can be found on GSA’s “Factors Influencing Lodging Rates” tab at <https://www.gsa.gov/perdiem>. Additional information on the special review process can also be found at this website under the “FAQs” tab. Further, the Federal Travel Regulation (FTR) allows for actual expense reimbursement as provided in §§ 301–11.300 through 301–11.306.

For FY 2025, no new non-standard area (NSA) locations are added. Maximum lodging allowance rates in some existing per diem localities are changing and the standard CONUS lodging rate is increasing from \$107 to \$110. The M&IE reimbursement rate tiers are also revised for FY 2025; they were last revised in FY 2022. The M&IE

NSA tiers are increasing from \$59–\$79 to \$68–\$92, and the standard M&IE rate is increasing from \$59 to \$68.

Other than the changes posted on the GSA website, notices published periodically in the **Federal Register** now constitute the only notification of revisions in CONUS per diem reimbursement rates to agencies.

Justification: The FY 2023 and 2024 appropriations for Maternal and Child Health Block Grant Special Projects of Regional and National Significance increased funding for the ITCP, compared to the FY 2022 enacted level. A Congressional Report accompanying the Further Consolidated Appropriations Act, 2024 (Pub. L. 118–47) designated funding “to continue and expand research-based Infant-Toddler Court Teams to change child welfare practices to improve wellbeing for infants, toddlers, and their families” (Senate Report 118–84). Consistent with Congressional intent, HRSA plans to use this funding to continue, enhance, and expand teams currently funded by ITCP

State Awards (HRSA–22–073). Supplemental awards will be used for project activities within the scope of the current ITCP—State Awards funding opportunity (HRSA–22–073). HRSA is awarding a total of approximately \$2.7 million to the 12 current ITCP—State Award recipients noted in table 1. Supplemental funding for similar activities may be considered in future years, depending on availability of funding for the activity and satisfactory performance.

Carole Johnson,
Administrator.
