Description: Shakespeare in American Communities (SiAC) is a theater program that brings professional performances of William Shakespeare’s plays and related educational activities to middle and high school students in communities across the United States, including youth in juvenile justice facilities. The National Endowment for the Arts (NEA) is the lead funder of the program, which is administered by an organization engaged by the NEA under a cooperative agreement (the Cooperator). This request is for a new data collection associated with SiAC juvenile justice subawards (SiAC/JJ): a teaching artist web form that has not been conducted in the past, as well as two supplemental forms—a supplemental application form and a supplemental final report form for subrecipients. This new data collection provides the NEA with enhanced capability for monitoring program performance of juvenile justice subawards, including understanding

how subaward projects are implemented and outcomes associated with each project. Specifically, NEA and the Cooperator will use data from the forms to collect information on the inputs, activities, and outputs of each subrecipient program identified in the program's measurement framework. In addition, information from the teaching artist data collection form will be used to understand student and teacher outcomes and potential successes that resulted from the subrecipient programs. The data will inform internal NEA and Cooperator discussions about project implementation and performance, potential program improvements, and decision-making related to this program. The Cooperator may also use the data to report on successes of the program in reports and storytelling. This request is for a full clearance to administer the web survey and supplemental forms.

Dated: August 14, 2024.

Administrative Officer (Deputy), Office of Administrative Services & Contracts, National Endowment for the Arts.
