Southeastern Power Administration; Filing

Take notice that on August 6, 2024, Southeastern Power Administration submitted a tariff filing: Notice of Cancellation of JW–2–F Rate Schedule to be effective 10/6/2024.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202)502–6595 or OPP@ferc.gov.

Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC; Notice of Request for Extension of Time

Take notice that on August 8, 2024, Freeport LNG Development, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC, and FLNG Liquefaction 3, LLC (together, Freeport LNG) requested that the Commission grant an extension of time, until March 21, 2025, to construct and place into service its Noble Gas Project (Project) located in Brazoria County, Texas as authorized in the Order Granting Authorization Under Section 3 of the Natural Gas Act issued on June 21, 2021 (Order).¹ The Order required Freeport LNG to complete construction of the Project and make it available for service within three years of the date of the Order, or by June 21, 2024.

Freeport LNG states that the only jurisdictional construction activity of the Project that remains to be completed is the ongoing Phase 3 firewater work. Freeport LNG explains that it has not been able to complete and place the Project in-service by the deadline due to third-party delays with the non-jurisdictional Helium Plant, which is being constructed by Linde Global

Helium (Linde) and is outside of Freeport LNG's control.² Freeport LNG reiterates that its final work on the jurisdictional facilities cannot be completed until the Helium Plant is ready to receive the boil-off gas from Freeport LNG. Therefore, Freeport LNG requests a nine-month extension of time to construct and place its Project in-service by no later than March 21, 2025.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Freeport LNG's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,³ the Commission will aim to issue an order acting on the request within 45 days.⁴ The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.⁵ The Commission will not consider arguments that re-litigate the issuance of the certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act (NEPA).⁶ At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission

will not re-litigate their issuance.⁷ The Director of the Office of Energy Projects, or his or her designee, will act on all of those extension requests that are uncontested.
