

water quality, air quality, and socioeconomic resources. Some other environmental resources have been analyzed in previous SURTASS LFA NEPA/E.O. 12114 documents and are incorporated by reference moving forward. The SEIS/OEIS will also analyze measures that would avoid, minimize, or mitigate environmental effects. The Navy will conduct all coordination and consultation activities required by the Marine Mammal Protection Act (MMPA), Endangered Species Act (ESA), and other laws and regulations determined to be applicable to the project. As part of this process, the Navy will seek the issuance of regulatory permits and authorizations under MMPA and ESA to support at-sea mission readiness activities within the Study Area, beginning in August 2026.

Pursuant to 40 CFR 1501.8, the Navy invited the National Marine Fisheries Service to be a cooperating agency in preparation of the SEIS/OEIS. On August 7, 2024 National Marine Fisheries Service agreed to be a cooperating agency.

The scoping process invites comments on the scope of the SEIS/OEIS including identification of potential alternatives, information and analyses relevant to the Proposed Action, identification of environmental concerns, and issues the public would like to see addressed in the SEIS/OEIS. Federal agencies, state agencies, local agencies, Tribal Organizations, the public, and interested persons are encouraged to provide comments.

Comments must be postmarked or submitted electronically via the website no later than 11:59 p.m. Pacific Time on September 19, 2024 for consideration during the development of the Draft SEIS/OEIS. Comments can be submitted electronically via the project website at <https://www.nepa.navy.mil/surtass-lfa/>.

After the scoping period, Navy will coordinate with participating and cooperating agencies to develop a Draft SEIS/OEIS. The Navy intends to release the Draft SEIS/OEIS in the spring of 2025, release the Final SEIS/OEIS in the winter of 2026, and sign a Record of Decision following the 30-day Final SEIS/OEIS wait period.
