

FTC staff assumes that the policies and procedures for compliance with the Address Discrepancy Rule will be set up by administrative support personnel at an hourly rate of \$23.¹⁹ Based on the above estimates and assumptions, the total annual labor cost for the two categories of burden under section 315 is \$500,181 (21,747 hours × \$23).

3. Combined Annual Labor Costs

Based on the foregoing, FTC staff estimates that the Red Flags, Card Issuers, and Address Discrepancy Rules will result in total annual labor costs of approximately \$22,350,652 (\$21,850,471 + \$500,181).

III. Estimated Annual Capital/Non-Labor Costs: De Minimis

FTC staff believes that the Rules impose negligible capital or other non-labor costs, as the affected entities are likely to have the necessary supplies and/or equipment already (e.g., offices and computers) for the information collections described herein.

C. Request for Comment

Pursuant to Section 3506(c)(2)(A) of the PRA, the FTC invites comments on: (1) whether the disclosure and recordkeeping requirements are necessary, including whether the information will be practically useful; (2) the accuracy of our burden estimates, including whether the methodology and assumptions used are valid; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information.

CDCF is widely recognized by public health entities and partners and is the only organization that was created by Congress to mobilize philanthropic and private-sector resources to support the Centers for Disease Control and Prevention's (CDC) critical health protection work which has been critical in allowing this program to support capacity building within state, tribal, local, and territorial health departments and partnership development across all facets of public health.
