

relevant regulations require major sources of Volatile Organic Compounds (“VOC”) emissions to obtain a permit, install RACT, and annually report emissions of all regulated air contaminants. The Complaint alleges that Gershow failed to comply with these requirements.

The Consent Judgment requires Gershow to comply with the SIP, obtain an appropriate CAA Title V permit, and install and operate an emission capture system and air pollution control equipment. The emission capture system will capture relevant emissions and route them to air pollution control equipment that will remove particulate matter, VOCs, and acid gases from the shredder’s emission in accordance with specifications detailed in the Consent Judgment. The Consent Judgment also requires Defendants to pay a \$555,000 civil penalty.
