Policy Justification

Kuwait—Medical Information System for Kuwait Military Medical Command (KMMC)

The Government of Kuwait has requested to buy planning, integration, implementation, and maintenance of a Medical Information System for its KMMC that consists of: Health Information Systems Information Technology (IT) hardware and software, IT infrastructure, implementation of life-cycle management practices, training, maintenance, support and warranty services, along with U.S. Government and contractor engineering, technical and logistics support services; and other related elements of logistical and program support. The estimated total cost is \$250 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the infrastructure of a Major Non-NATO ally that has been and continues to be an important force for political stability and economic progress in the Middle East.

This proposed sale will improve Kuwait's capability to provide greater health security for its KMMC infrastructure. Kuwait will use the enhanced capability to strengthen its medical services management. Kuwait will have no difficulty absorbing this infrastructure, support, and associated services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Cerner Corporation, Kansas City, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of as many as fifteen (15) additional U.S. Government or U.S. contractor representatives to Kuwait for a duration of up to seven (7) years to provide

systems planning, implementation, management, and oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Fixed-Rate Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans First Disbursed on or After July 1, 2013

Section 455(b) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1087e(b)), includes formulas for determining the interest rates for all Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans first disbursed on or after July 1, 2013. The interest rate for these loans is a fixed rate that is determined annually for all loans first disbursed during any 12-month period beginning on July 1 and ending on June 30. The rate is equal to the high yield of the 10-year Treasury notes auctioned at the final auction held before June 1 of that 12-month period, plus a statutory add-on percentage that varies depending on the loan type and, for Direct Unsubsidized Loans, whether the loan was made to an undergraduate or graduate student. The calculated interest rate may not exceed a maximum rate specified in the HEA. If the interest rate formula results in a rate that exceeds the statutory maximum rate, the rate is the statutory maximum rate. Loans first disbursed during different 12-month periods that begin on July 1 and end on June 30 may have different interest rates, but the rate determined for any loan is a fixed interest rate for the life of the loan.

On May 8, 2024, the United States Treasury Department held a 10-year Treasury note auction that resulted in a high yield of 4.483 percent, rounded to 4.48 percent.

Chart 1 shows the fixed interest rates for Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans first disbursed on or after July 1, 2024, and before July 1, 2025.
