SUPPLEMENTARY INFORMATION:

Agenda

The Scallop Committee will meet to discuss: Framework 39-Review results of 2024 scallop surveys, and preliminary projections. The primary focus of this meeting will be to develop input on the range of potential specification alternatives for FY 2025 and FY 2026. The action will set Acceptable Biological Catch (ABC)/ Annual Catch Limits (ACLs), days-atsea, access area allocations, total allowable landings for the Northern Gulf of Maine (NGOM) management area, targets for General Category incidental catch, General Category access area trips and trip accounting, and set-asides for the observer and research programs for fishing year 2025 and default specifications for fishing year 2026. The Committee will also discuss the Scallop Plan Development Team's (PDT) review of accountability measures for yellowtail flounder and windowpane flounder and consider the development of measures in this action. They also plan to discuss the Scallop Strategic Plan—Consider progress and develop input on the process and timeline for this project. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
