

program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

Agencies may not destroy Federal records without the approval of the Archivist of the United States. The Archivist grants this approval only after thorough consideration of the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value. Public review and comment on these records schedules is part of the Archivist's consideration process.

Schedules Pending

1. Department of Defense, Department of the Army, Montgomery GI Bill (MGI B), Army College Fund (ACF), Veterans' Educational Assistance Program (VEAP), and Post 911 (DAA-AU-2024-0005).

2. Department of Justice, Office of the Pardon Attorney, Clemency Correspondence (DAA-0204-2024-0003).

3. Department of Veterans Affairs, Veterans Health Administration, Veterans Crisis Line (DAA-0015-2023-0002).

4. Federal Energy Regulatory Commission, Agency-wide, FC Docket, Foreign Utility Company Request (DAA-0138-2024-0011).

5. Library of Congress, Agency-wide, Grant Management [was Property and Procurement]—2024 updates (DAA-0297-2024-0005).

6. Library of Congress, Agency-wide, Information Technology—2024 updates (DAA-0297-2024-0007).

William P. Fischer,

Acting Chief Records Officer for the U.S. Government.

BILLING CODE 7515-01-P

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

Institute of Museum and Library Services

Notice of Proposed Information Collection Requests: Museum Assessment Program Application Forms and Surveys

AGENCY: Institute of Museum and Library Services, National Foundation on the Arts and the Humanities.

ACTION: Notice, request for comments, collection of information.

SUMMARY: The Institute of Museum and Library Services (IMLS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act. This pre-clearance consultation program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The purpose of this Notice is to solicit comments concerning the three-year approval of application forms and surveys to support the implementation of the Museum Assessment Program. A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **FOR FURTHER INFORMATION CONTACT** section of this Notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before November 02, 2024.

ADDRESSES: Send comments to Julie Balutis, Director of Grants Policy and Management, Office of Grants Policy and Management, Institute of Museum and Library Services, 955 L'Enfant Plaza North SW, Suite 4000, Washington, DC 20024-2135. Ms. Balutis can be reached by telephone: 202-653-4645, or by email at jbalutis@imls.gov. Office hours are from 8:30 a.m. to 5 p.m., E.T., Monday through Friday, except federal holidays.

Persons who are deaf or hard of hearing (TTY users) can contact IMLS at 202-207-7858 via 711 for TTY-Based Telecommunications Relay Service.

FOR FURTHER INFORMATION CONTACT: Mark Isaksen, Supervisory Grants Management Specialist, Office of Museum Services, Institute of Museum and Library Services, 955 L'Enfant Plaza North SW, Suite 4000, Washington, DC 20024-2135. Mr. Isaksen can be reached by telephone at 202-653-4667, or by email at misaksen@imls.gov. Persons who are deaf or hard of hearing (TTY users) can contact IMLS at 202-207-7858 via 711 for TTY-Based Telecommunications Relay Service.

SUPPLEMENTARY INFORMATION: IMLS is particularly interested in public comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, e.g., permitting electronic submissions of responses.

I. Background

IMLS is the primary source of Federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.imls.gov.

II. Current Actions

The Museum Assessment Program (MAP) offers museums an opportunity to strengthen operations and plan for the future through a process of self-assessment, institutional activities, and consultative peer review. MAP is supported through a cooperative agreement between IMLS and the American Alliance of Museums. Program participants choose from among four assessments: Collections Stewardship, Community and Audience Engagement, Education and Interpretation, and Organizational. Those who complete the assessment receive a report with prioritized recommendations reflecting the assessment type chosen. The forms submitted for public review will include the MAP Application, the MAP Follow-Up Visit Request, the Implementation Stipend Request, and five online customer satisfaction surveys for MAP participants and peer reviewers.

Agency: Institute of Museum and Library Services.

Title: Museum Assessment Program Application Forms and Surveys.

OMB Control Number: 3137-0101.

Agency Number: 3137.

Respondents/Affected Public:

Museum staff and peer reviewers.

Total Estimated Number of Annual Respondents: 415.

Frequency of Response: Once per request.

Estimated Average Burden (Hours) per Response: 13.30.

Total Estimated Number of Annual Burden Hours: 811.25.

Total Annual Cost Burden: \$23,898.

Total Annual Federal Costs: \$3,527.

Public Comments Invited: Comments submitted in response to this Notice will be summarized and/or included in the request for OMB's clearance of this information collection.

Dated: August 29, 2024.

Suzanne Mbollo,

Grants Management Specialist, Institute of Museum and Library Services.

BILLING CODE 7036-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection

Activities: Comment Request; National Survey of College Graduates

AGENCY: National Science Foundation, National Center for Science and Engineering Statistics.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to renew this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by November 4, 2024 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite E6300, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: 2023 National Survey of College Graduates.

OMB Control Number: 3145-0141.

Expiration Date of Current Approval: April 30, 2025.

Type of Request: Intent to seek approval to extend an information collection for three years.

Abstract: Established within NSF by the America COMPETES Reauthorization Act of 2010 § 505, codified in the National Science Foundation Act of 1950, as amended, the National Center for Science and Engineering Statistics (NCSES) serves as a central Federal clearinghouse for the collection, interpretation, analysis, and dissemination of objective data on science, engineering, technology, and research and development for use by practitioners, researchers, policymakers, and the public.

The National Survey of College Graduates (NSCG) is designed to comply with these mandates by providing information on the supply and utilization of the nation's scientists and engineers. The purpose of the NSCG is to collect data that will be used to provide national estimates on the size, composition such as demographics, fields of degree and veteran's status, and activities such as work activities, work-related training, professional conference attendance of the science and engineering workforce and changes in their employment, education, and demographic characteristics (for example, race and ethnicity, citizenship, gender, age, disability status, place of birth). The NSCG has been conducted biennially since the 1970s. The 2025 NSCG sample will be selected from the 2023 American Community Survey (ACS) and the 2023 NSCG. By selecting the sample from these two sources, the 2025 NSCG will provide coverage of the college graduate population residing in the United States.

The U.S. Census Bureau, as the agency responsible for the ACS, will serve as the NSCG data collection contractor for NCSES. The survey data collection is expected to begin in March 2025 and continue for approximately six months. Data will be collected using web and mail questionnaires. The individual's response to the survey is voluntary. The survey will be conducted in conformance with Census Bureau statistical quality standards and, as such, the NSCG data will be afforded confidentiality protection under the applicable Census Bureau confidentiality statutes.

Use of the Information: NSF uses the information from the NSCG to prepare congressionally mandated reports such as *Diversity and STEM: Women, Minorities and Persons with Disabilities* (<https://www.nsf.gov/statistics/women/>) and *Science and Engineering Indicators* (<https://nces.nsf.gov/indicators>), both of which are available online. A public release file of collected data, designed to protect respondent confidentiality, will be made available

on the internet and will be accessible through an online data tool (<https://ncesdata.nsf.gov/ids/>).

Expected Respondents: A statistical sample of approximately 161,000 individuals (103,000 returning sample members and 58,000 new sample members) will be contacted in 2025, using the ACS as the sampling frame in the rotating panel design. Under the rotating panel design, the 2025 NSCG production sample will include 161,000 sample cases which comprises:

1. Returning sample from the 2023 NSCG (originally selected from the 2017 ACS);
2. Returning sample from the 2023 NSCG (originally selected from the 2019 ACS);
3. Returning sample from the 2023 NSCG (originally selected from the 2021 ACS); and
4. New sample selected from the 2023 ACS

Based on recent survey cycles, NCSES expects the overall response rate to be 60-65 percent.

Estimate of Burden: The amount of time to complete the questionnaire may vary depending on an individual's educational history, employment status, and past response to the NSCG. The time to complete the 2023 NSCG web survey ranged from 19.6 minutes on average for the returning sample members to 26.3 minutes on average for the new members, and approximately 91% of respondents completed the survey by using the web mode. Among respondents who completed the survey using Computer Assisted Telephone Interviewing (CATI) and Telephone Questionnaire Assistance (TQA) modes, in which sample members contacted Census's call center and took the survey over the phone, their interview times ranged from 33.6 minutes for returning sample members to 44.3 minutes for new sample members, and less than 2% of respondents completed the NSCG questionnaire by using the telephone mode. It was estimated that all forms of the 2023 NSCG paper questionnaire took 30 minutes to complete, and about 7% of respondents completed the paper form. Although the 2023 NSCG include a CATI mode, this mode is proposed to be discontinued in the 2025 NSCG due to increasing costs, reduced budget and low response in the 2023 cycle. TQA staff will take incoming interviews.

Based on the 2023 cycle's survey completion times, it is estimated that it will take approximately 23 minutes, on average, to complete the 2025 NSCG questionnaire. This takes into account the proposed removal of CATI and the continuation of TQA. This estimate also takes into account the continuation of
