Public Participation and Request for Comments

This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. 3501 *et seq.*, chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the

Information Collection Request

Title: National Recreational Boating Safety Survey.

OMB Control Number: 1625-0089.

Summary: The National Recreational Boating Safety Survey collects data on recreational boating participation and exposure. Specifically, the survey focuses on the types of boats used, the demographics of boaters, the types of safety equipment on recreational boats, and the amount of time boaters spend on the water. Boating hours calculated from this survey play an integral part in calculating risk ratios associated with recreational boating. In light of the USCG's safety-oriented mission, we are proposing a name change of this survey to the National Recreational Boating Safety Survey from the National Recreational Boating Survey.

Need: The Federal Boat Safety Act of 1971 determines the framework of the Coast Guard recreational boating safety program. This program as set forth in 46 U.S.C. Chapter 131, requires the Coast Guard to "encourage greater State participation and uniformity in boating safety efforts, and particularly to permit the States to assume a greater share of boating safety education, assistance, and enforcement activities." See 46 U.S.C. 13102. The Coast Guard Office of Auxiliary & Boating Safety, Boating Safety Division achieves these goals by providing timely and relevant information on boating activities that occur in each respective jurisdiction. The boating information provided by the Coast Guard enables each State agency to tailor and implement safety initiatives addressing specific needs of boaters in local jurisdictions. The primary objective of this collection is to provide the Coast Guard with the required information in a format suitable to effectively manage the program.

Forms: None.

Respondents: Recreational boaters and recreational boat owners living in the 50 states and the District of Columbia.

Frequency: The survey takes place every five to eight years and the last survey was conducted in 2018.

Hour Burden Estimate: The survey will take approximately 125,863 respondents a total estimate burden of 15,151 hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: August 27, 2024.

Kathleen Claffie,

Chief, Office of Privacy Management, U.S. Coast Guard.

SUPPLEMENTARY INFORMATION:**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation will be available at <https://www.reginfo.gov> upon its submission to OMB. Therefore, in preparation for OMB review and

approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

OMB Control Number 1652-0001; Imposition and Collection of Passenger Civil Aviation Security Service Fees. In accordance with 49 U.S.C. 44940 and relevant TSA Regulations, *see* 49 CFR part 1510, TSA imposes a Passenger Civil Aviation Security Service Fee (September 11th Security Fee) on passengers of both foreign and domestic air carriers ("air carriers") on air transportation originating at airports in the United States.

The September 11th Security Fee is collected by air carriers and remitted to TSA, which then transmits the fees to the U.S. Treasury Department to help offset the Federal Government's costs of providing civil aviation security services and other purposes designated by 49 U.S.C. 44940. This information collection requires air carriers to submit to TSA information regarding the amount of September 11th Security Fees an air carrier has imposed, collected, refunded to passengers, and remitted to TSA. The retention of this data is necessary for TSA to ensure the proper imposition, collection, and regulation the September 11th Security Fee. Additionally, TSA collects the information to monitor carrier compliance with the fee requirements and for auditing purposes. Air carriers are required to retain this information for three years. Specifically, information collected during a given fiscal year (FY) (October 1 through September 30) must be retained through three subsequent fiscal years. For example, information collected during fiscal year 2020 must be retained through fiscal year 2023.

TSA's regulations require air carriers to impose and collect the fee on passengers, and to remit the fee to TSA by the final day of the calendar month following the month in which the fee was collected. *See* 49 CFR 1510.13. Air
