National Institutes of Health

Office of the Secretary; Notice of Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the Interagency Autism

Coordinating Committee (IACC or Committee). The meeting will be virtually held and is open to public viewing. The connection information and how to access the meeting will be available on the IACC website (<https://iacc.hhs.gov>). Advanced registration is recommended. Individuals wishing to participate that need special assistance or other reasonable accommodations should submit a request to the Contact Person listed on this notice at least seven (7) business days prior to the meeting.

The purpose of this IACC meeting is to discuss the draft 2024 IACC Strategic Plan Update, which is focused on co-occurring conditions and their impacts on health outcomes in autistic individuals. This draft report summarizes current knowledge of several physical and mental health conditions and identifies additional research, services, and policy needs to improve health outcomes related to these conditions for autistic people in all communities.

Name of Committee: Interagency Autism Coordinating Committee.

Date: September 23, 2024.

Time: 9:00 a.m. to 11:00 a.m.

Agenda: To discuss the 2024 IACC Strategic Plan Update, which is focused on co-occurring conditions and the impacts on health outcomes for autistic individuals.

Place: National Institutes of Health, Neuroscience Center, 6001 Executive Boulevard, Rockville, MD 20852 (Virtual Meeting).

Cost: The meeting is free and open to the public.

Registration: A registration web link will be posted on the IACC website (www.iacc.hhs.gov) prior to the meeting. Pre-registration is recommended.

Contact Person: Ms. Rebecca Martin, Office of National Autism Coordination, National Institute of Mental Health, NIH.

Phone: 301-435-0886.

Email: IACCPublicInquiries@mail.nih.gov.

Technical issues: If you experience any technical problems, please email IACCPublicInquiries@mail.nih.gov.

Disability Accommodations: Closed Captioning is provided by Zoom. Individuals whose full virtual participation in the meeting will require special accommodations (e.g., sign language or interpreting services, etc.) must submit a request to the Contact Person listed on the notice at least seven (7) business days prior to the meeting. Such requests should include a detailed description of the accommodation needed and a way for the IACC to contact the requester if more information is needed to fill the request. Special requests should be made at least seven (7) business days prior to the meeting; last-minute requests may be

made but may not be possible to accommodate.

More Information: Information about the IACC is available on the website: <https://iacc.hhs.gov/>.

Dated: August 30, 2024.

Docket: For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Rebecca Buchanan, 202-765-9903, rebecca.buchanan@cisa.dhs.gov.

SUPPLEMENTARY INFORMATION: The Foundations for Evidence-Based Policymaking Act of 2018 (Pub. L. 115-435), or the Evidence Act, promotes the

use of evidence to inform decision-making and requires federal agencies to undertake activities toward this end. Specifically, the Evidence Act requires agencies to develop Learning Agendas and Annual Evaluation Plans.

The CISA's Learning Agenda questions are documented in the Department of Homeland Security FY 2022-2026 Learning Agenda. In addition, its evaluations are included in the Department's Annual Evaluation Plans, indicating that the Department has recognized those evaluations as "significant." The Stakeholder Engagement Division (SED) Convenings Evaluation is one such significant evaluation and was included in the Department of Homeland Security FY 2023 Annual Evaluation Plan. CISA's PA&E Division and its evaluation services contractor, Guidehouse, are working together to conduct this study.

SED Convenings Evaluation

Trusted, sustained, and effective partnerships between government and the private sector are the foundation of our collective effort to protect the Nation's critical infrastructure. Critical infrastructure are those assets, systems, and networks that provide functions necessary for our way of life. There are 16 critical infrastructure sectors that are part of a complex, interconnected ecosystem and any threat to these sectors could have potentially debilitating national security, economic, and public health or safety consequences. Securing the nation's cyber and physical infrastructure is a shared responsibility that requires a trusted partner relationship network and well-established communications mechanisms to rapidly synchronize activities to respond to, recover from, and mitigate real world threats and incidents.

SED leads CISA's national and international voluntary partnerships and engagements with critical infrastructure stakeholders while serving as the agency's hub for the shared stakeholder information that unifies CISA's approach to whole-of-nation operational collaboration and information sharing. CISA's voluntary partnership model relies on constant feedback and collaboration with critical infrastructure partners. One mechanism to seek this input is through the various convening activities, including Councils, Boards, and Committees, that CISA manages through SED's Council Management subdivision. These convening mechanisms provide structure and an iterative process for bringing government, industry, and academic partners together to drive

whole-of-nation operational collaboration. Other products and services offered to partners include analysis, reports, guidance, trainings, and scenario-based drills developed to help the entire community do their part to raise the security baseline of critical infrastructure's assets, systems, and networks.

This SED Convenings Evaluation will assess the extent to which CISA's convening activities, products, and services (1) provide timely, accurate, and useful information about security and risk resilience, including opportunities for meaningful information exchange between CISA and sector stakeholders; and (2) are accessed and used by stakeholders to enhance their abilities to respond to critical threats and improve strategic decision-making and risk reduction. This study also aims to increase understanding of the best practices for getting stakeholders engaged and building trusted relationships.

This is a new information collection. Information will be collected by CISA PA&E's evaluation services contractor, the Guidehouse team. The potential respondent universe for this evaluation includes individual representatives (approximately 1,000 cyber and physical security, emergency, and business continuity managers) of approximately 300 member organizations from three critical infrastructure sectors [Critical Manufacturing, Commercial Facilities, and Nuclear Reactors, Materials, and Waste (herein referred to as "Nuclear")]. Those who have served as a representative for less than 3 months will be excluded.

The burden for respondents will be minimized by restricting the survey and interview length, by conducting interviews at times convenient for respondents, and by not requiring record-keeping or written responses on the part of the respondents. Some member organizations may be small businesses. The evaluation team will only request information required for the purposes of the evaluation.

Surveys. The survey will be created and sent using Qualtrics, a professional-grade survey software, in order to minimize burden. Using the email addresses of the representatives provided by the SED sector chiefs, the study team will send a link that participants can use to access and complete the survey using a tablet, smartphone, or laptop. Electronic submission will ensure the maximum response rate while also permitting respondents to complete the survey at a time of their own choosing.
