SUPPLEMENTARY INFORMATION:

Deletions

On 8/2/2024 (89 FR 63168), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed deletions from the Procurement List. This notice is published pursuant to 41 U.S.C. 8503(a)(2) and 41 CFR 51-2.3.

After consideration of the relevant matter presented, the Committee has determined that the service(s) listed below are no longer suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in additional reporting, recordkeeping or other compliance requirements for small entities.

2. The action may result in authorizing small entities to furnish the service(s) to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the service(s) deleted from the Procurement List.

End of Certification

Accordingly, the following product(s) and service(s) are deleted from the Procurement List:

BILLING CODE 6353–01–P

DEPARTMENT OF ENERGY

Privacy Act of 1974; System of Records

AGENCY: U.S. Department of Energy.

ACTION: Notice of a modified system of records.

SUMMARY: As required by the Privacy Act of 1974 and the Office of Management and Budget (OMB) Circulars A–108 and A–130, the Department of Energy (DOE or the Department) is publishing a notice of a modification to an existing Privacy Act system of records. DOE proposes to amend System of Records DOE–3 Employee Concerns Program Records. This Systems of Records Notice (SORN) is being modified to align with new formatting requirements published by the OMB, and to ensure appropriate Privacy Act coverage of business processes and Privacy Act information. Substantive changes to the “Purpose(s)

of the System,” “Categories of Individuals” and “Categories of Records” sections covered by this SORN have been made to align with DOE Order 442.1B, *Department of Energy Employee Concerns Program*, which was approved by the Department on January 31, 2019. Substantive changes have also been made to the “System Locations,” “Routine Uses,” and “Administrative, Technical and Physical Safeguards” sections to provide greater transparency. Changes to “Routine Uses” include new provisions related to responding to breaches of information held under a Privacy Act SORN as required by OMB’s Memorandum M–17–12, “Preparing for and Responding to a Breach of Personally Identifiable Information” (January 3, 2017). Language throughout the SORN has been updated to align with applicable Federal privacy laws, policies, procedures, and best practices. **DATES:** This modified SORN will become applicable following the end of the public comment period on October 7, 2024 unless comments are received that result in a contrary determination. **ADDRESSES:** Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW, Washington, DC 20503 and to Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H–085, Washington, DC 20585 or by facsimile at (202) 586–8151 or by email at privacy@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Ken Hunt, Chief Privacy Officer, U.S. Department of Energy, 1000 Independence Avenue SW, Rm 8H–085, Washington, DC 20585 or by facsimile at (202) 586–8151, by email at privacy@hq.doe.gov, or by telephone at (240) 686–9485.

SUPPLEMENTARY INFORMATION: On January 9, 2009, DOE published a Compilation of its Privacy Act systems of records, which included System of Records DOE–3 Employee Concerns Program Records. This notice proposes amendments to the “System Location” section of that system of records by updating system locations to which this DOE–3 is applicable. In the “Routine Uses” section, this modified notice deletes a previous routine use concerning efforts responding to a suspected or confirmed loss of confidentiality of information as it appears in DOE’s compilation of its Privacy Act systems of records (January 9, 2009) and replaces it with a routine use intended to assist DOE with

responding to a suspected or confirmed breach of its records containing Personally Identifiable Information (PII), modeled with language from OMB’s Memorandum M–17–12, “Preparing for and Responding to a Breach of Personally Identifiable Information” (January 3, 2017). Further, this notice adds two new routine uses. First, this notice clarifies that a record from the system may be used to document and address employee concerns pursuant to DOE Order 442.1B, *Department of Energy Employee Concerns Program* (and successor documents) and complaints filed with the Employee Concerns Program pursuant to provisions of 10 CFR part 708, *DOE Contractor Employee Protection Program*. In addition, DOE may assist another agency or entity in responding to the other agency’s or entity’s confirmed or suspected breach of PII, as appropriate, as aligned with OMB’s Memorandum M–17–12. An administrative change required by the FOIA Improvement Act of 2016 extends the length of time a requestor is permitted to file an appeal under the Privacy Act from 30 to 90 days. Both the “System Locations” and “Administrative, Technical and Physical Safeguards” sections have been modified to reflect the Department’s usage of cloud-based services for records storage. Language throughout the SORN has been updated to align with applicable Federal privacy laws, policies, procedures, and best practices.

SYSTEM NAME AND NUMBER:

DOE–3 Employee Concerns Program Records.

SECURITY CLASSIFICATION:

Unclassified.

SYSTEM LOCATION:

Systems to which this SORN is applicable may exist in multiple locations. All systems storing records in a cloud-based server are required to use government-approved cloud services and follow National Institute of Standards and Technology (NIST) security and privacy standards for access and data retention. Records maintained in a government-approved cloud server are accessed through secure data centers in the continental United States.
