Background

Pursuant to section 11510(b) of the Bipartisan Infrastructure Law (BIL), enacted as the Infrastructure Investment and Jobs Act (Pub. L. 117-58), FHWA is required to develop a tool to assist transportation authorities in identifying, detecting, protecting against, responding to, and recovering from cyber incidents. Safety is the top priority of DOT and FHWA. The FHWA routinely works closely and collaboratively with Federal and State agencies whose primary missions revolve around securing critical transportation infrastructure. The FHWA provides subject matter expertise to those agencies in identifying potential physical and cybersecurity threats and appropriate mitigation efforts. When presented with physical or cybersecurity questions, concerns or incidents from State, local, Tribal, and Territorial transportation authorities, or other stakeholders, FHWA routinely assists in connecting these entities to security-focused government agencies, including the Transportation Security Administration, the Cybersecurity and Infrastructure Security Agency (CISA), and the Federal Bureau of Investigation.

On March 5, 2024, FHWA published in the **Federal Register** (89 FR 15923) a notice and request for comments proposing to adopt CISA's CSET as a voluntary tool that transportation authorities can use to assist in

identifying, detecting, protecting against, responding to, and recovering from cyber incidents. The CISA's cybersecurity mission is to defend and secure cyberspace by leading national efforts to drive national cyber defense, resilience of national critical functions, and a robust technology ecosystem. The FHWA therefore thinks it is appropriate to leverage CISA's expertise instead of attempting to create a separate and potentially duplicative tool. The CSET, developed by CISA, is a comprehensive software tool designed to assist organizations in assessing their cybersecurity posture and developing structured improvement programs. The CSET helps organizations evaluate their cybersecurity practices, identify vulnerabilities, and prioritize mitigation efforts by providing a systematic approach to assess cybersecurity controls and processes. It offers a range of modules and questionnaires tailored to different critical infrastructure sectors, making it a valuable resource for organizations seeking to enhance their cybersecurity resilience through a well-structured assessment and development program. The CSET is available to the public for download at <https://www.cisa.gov/downloading-and-installing-cset>.

Discussion of Comments Received

Consistent with BIL, section 11510(b)(2)(E), FHWA requested comments on its notice proposing to adopt CSET. The FHWA received two comments, both of which supported FHWA's proposal to adopt CSET as a voluntary cybersecurity tool. The FHWA appreciates the comments.

Adoption of Cyber Security Evaluation Tool

In accordance with BIL, section 11510(b), and after reviewing the comments received, FHWA announces with this notice that FHWA adopts CISA's CSET as a voluntary tool transportation authorities can use to provide assistance regarding cyber incidents.

Authority: Sec. 11510, Pub. L. 117-58, 135 Stat. 592.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2023-0272]

Commercial Driver's License Standards: Application for Exemption; State of Hawaii Department of Transportation

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice of final disposition; granting of application for exemption.

SUMMARY: FMCSA announces its decision to grant an exemption to the Hawaii Department of Transportation (HDOT) to allow commercial driver's license (CDL) holders with a passenger (P) endorsement to operate a school bus without holding a school bus (S) endorsement, provided an adult chaperone is present on the bus who is responsible for ensuring the safe loading and unloading of children. This exemption applies to drivers operating traditional school buses, *i.e.*, buses designed to be school buses, and to motorcoaches and vans not designed to be school buses. Drivers operating a traditional school bus must have an S endorsement commercial learner's permit (CLP) and obtain their full S endorsement within 90 days of the date they obtained the S endorsement CLP. Drivers operating motorcoaches or vans not designed to be a school bus must operate between designated central locations, such as parks or parking lots, and school or school-sponsored events.

DATES: The exemption is effective September 10, 2024 and expires September 10, 2029.
