Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Fishing Capacity Reduction Program/Buyback Requests

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 14, 2024, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration, Commerce.

Title: Fishing Capacity Reduction Program/Buyback Requests.

OMB Control Number: 0648–0376.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 200.

Average Hours Per Response: 0.5 hours for buyback fee collection reports; 4 hours for buyback annual reports.

Total Annual Burden Hours: 930 hours.

Needs and Uses: This request is for extension of a currently approved information collection.

The Sustainable Fisheries Act (SFA) amended the Magnuson-Stevens Fishery Conservation and Management Act (MSA) to provide for voluntary reduction of excess fishing capacity through fishing capacity reduction (buyback) programs. Excess fishing capacity decreases fisheries earnings, complicates fishery management, and imperils fishery conservation. The statutory objective of a program is “to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time.” Buybacks pay fishermen either to: (1) Surrender their fishing permits; or (2) both surrender their permits and either scrap their fishing vessels or restrict vessel title to prevent fishing. Buybacks

can involve either a Federal or State fishery. Buybacks can be funded via a long-term loan from the Federal government to the fishery (industry-funded buybacks), to be repaid by the industry by post-buyback landing fees, or funded from appropriations (non-industry funded) or other non-loan sources of funds. Programs involving industry-financed loans are authorized by section 1111 of title XI of the Merchant Marine Act, 1936.

NOAA National Marine Fisheries Service (NMFS) established programs to reduce excess fishing capacity by paying fishermen to surrender their vessels/permits. The information collected by NMFS involves the submission of buyback requests by industry, submission of bids, referenda of fishery participants and reporting of collection of fees to repay buyback loans. For buybacks involving State-managed fisheries, the State may be involved in developing the buyback plan and complying with other information requirements. NMFS requests information from participating buyback participants to track repayments of the loans as well as ensure accurate management and monitoring of the loans. The fees for recordkeeping and reporting requirements at 50 CFR parts 600.1013 through 600.1017 form the basis for the collection of information.

Information collections associated with loan creation were removed from the 2021 renewal because no new loans are anticipated moving forward, but the **Federal Register** notice published on May 14, 2024 (89 FR 41947) included the burden for these removed activities. That error has been corrected in this notice.

Affected Public: Businesses.

Frequency: Monthly and annually.

Respondent's Obligation: Required to Obtain or Retain Benefits.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Reauthorization Act, Public Law 104–297 section 312(b)–(e).

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on July 10, 2024 during a 60-day comment period (89 FR 56739). This notice allows for an additional 30 days for public comment.

(TMA), Public Law 116–260 (Dec. 27, 2020), to cancel, either in whole or in part, registered marks for which the required use in commerce was not made. The burden estimate for petitions for ex parte expungement or reexamination was previously contained in OMB Control No. 0651–0086, Changes to Implement Provisions of the Trademark Modernization Act, but is being transferred into this information collection for efficiency. Finally, this information collection consolidates into a single burden estimate the burden for responses to petition inquiry letters (PTO–2305), which was previously reflected in both OMB Control No. 0651–0086 and this information collection.

The information covered in this collection is used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. Information relating to the registration of a trademark is made available to the public by the USPTO. However, the release of information in a letter of protest is controlled and may be available only upon request.
