

ICCVAM agencies and NICEATM collaborated with the German Federal Institute of Risk Assessment to compile the largest existing database of human reference data for skin sensitization.

- Broadening applicability of defined approaches for skin sensitization. Following international acceptance of defined approaches to skin sensitization, ICCVAM agency scientists evaluated use of defined approaches to characterizing sensitization potential of agrochemical formulations and isothiazolinones, a type of preservative used in consumer products.

- Establishment of an ICCVAM workgroup to provide expertise in identifying and evaluating NAMs to predict toxicity of per- and polyfluoroalkyl substances (PFAS).

- Development, updates, and training on web tools and data resources for chemical exploration and toxicity prediction. The report describes tools provided by NIEHS, the U.S. Environmental Protection Agency, and others, as well as training that has been provided to support their use.

Availability of Report: The report is available at <https://ntp.niehs.nih.gov/go/2023iccvamreport>. Links to this report and all past ICCVAM annual and biennial reports are available at <http://ntp.niehs.nih.gov/go/iccvam-bien>.

Background Information on ICCVAM and NICEATM: ICCVAM is an interagency committee composed of representatives from 18 federal regulatory and research agencies that require, use, generate, or disseminate toxicological and safety testing information. ICCVAM conducts technical evaluations of new, revised, and alternative safety testing methods and integrated testing strategies with regulatory applicability. ICCVAM also promotes the scientific validation and regulatory acceptance of testing methods that more accurately assess the safety and hazards of chemicals and products and replace, reduce, or refine animal use.

The ICCVAM Authorization Act of 2000 (42 U.S.C. 285l–3) establishes ICCVAM as a permanent interagency committee of NIEHS and provides the authority for ICCVAM involvement in activities relevant to the development of alternative test methods. Additional information about ICCVAM can be found at <https://ntp.niehs.nih.gov/go/iccvam>.

NICEATM administers ICCVAM, provides scientific and operational support for ICCVAM-related activities, and conducts and publishes analyses and evaluations of data from new, revised, and alternative testing approaches. NICEATM and ICCVAM

work collaboratively to evaluate new and improved testing approaches applicable to the needs of U.S. federal agencies. NICEATM and ICCVAM welcome the public nomination of new, revised, and alternative test methods and strategies for validation studies and technical evaluations. Additional information about NICEATM can be found at <https://ntp.niehs.nih.gov/go/niceatm>.

Dated: September 10, 2024.

Richard P. Woychik,

Director, National Institute of Environmental Health Sciences and National Toxicology Program, National Institutes of Health.

National Institute on Aging; Notice of Closed Meeting

Pursuant to section 1009 of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute on Aging Special Emphasis Panel; Infrastructure Development for Interdisciplinary Aging Research.

Date: November 18, 2024.

Time: 10:00 a.m. to 6:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute on Aging, 5601 Fishers Lane, Rockville, MD 20892 (Virtual Meeting).

Contact Person: Lisa-Marie Tisdale Rowell, Ph.D., Scientific Review Officer, National Institute of Aging, National Institute of Health, 5601 Fishers Lane, Rm. 1007G, Rockville, MD 20892, (301) 594–5622, wigfallt@mail.nih.gov.

(Catalogue of Federal Domestic Assistance Program Nos. 93.866, Aging Research, National Institutes of Health, HHS)

Dated: September 10, 2024.

Miguelina Perez,

Program Analyst, Office of Federal Advisory Committee Policy.
