

of imports of ceramic tile from India.<sup>1</sup> On July 22, 2024, Commerce tolled certain deadlines in this investigation by seven days.<sup>2</sup> Currently, the preliminary determination is due no later than October 3, 2024.

### Postponement of Preliminary Determination

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in a LTFV investigation within 140 days after the date on which Commerce initiated the investigation. However, section 733(c)(1)(A)(b)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) the petitioner<sup>3</sup> makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On September 3, 2024, the petitioner submitted a timely request that Commerce postpone the preliminary determination in the LTFV investigation.<sup>4</sup> The petitioner requested postponement of the preliminary determination because it believes that Commerce requires more time to review questionnaire responses and address any deficiencies.<sup>5</sup>

For the reason stated above and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act, is postponing the deadline for the preliminary determination by 50 days (*i.e.*, 190 days after the date on which this investigation was initiated).

As a result, Commerce will issue its preliminary determinations no later than November 22, 2024.<sup>6</sup> In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination of this investigation will continue to be 75 days after the date of the preliminary determination, unless postponed at a later date.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

#### Summary of the Application

**Applicant:** Alaska Longline Cod Commission, c/o Mundt MacGregor L.L.P., 271 Wyatt Way NE, Suite 106, Bainbridge Island, WA 98110.

**Contact:** Duncan McIntosh, Attorney at Law.

**Application No.:** 10–7A001.

**Date Deemed Submitted:** September 5, 2024.

**Proposed Amendment:** Alaskan Longline Cod Commission seeks to amend its Certificate as follows:

1. Add the following six products as Export Products within the meaning of section 325.2(j) of the Regulations (15 CFR 325.2(j)):

- a. Headed and gutted pollock
- b. Headed and gutted sablefish
- c. Sablefish heads
- d. Sablefish collars
- e. Headed, gutted, and tailed Greenland turbot
- f. Turbot heads

*The proposed amendment would result in the following Export Products under Export Trade in the Certificate:*

*Export Products*

ALCC plans to export frozen at-sea, headed and gutted, Alaska cod (*Gadus macrocephalus*), also known as Pacific cod. Headed and gutted means the head and viscera are removed prior to freezing. Frozen-at-sea means that the Alaska cod is frozen on the longline catcher-processor vessel while at-sea immediately after being headed and gutted. The catch accrues against cod allocations to the Members.

ALCC also plans to export byproducts of ALCC frozen-at-sea, headed and gutted Alaska cod, caught via hook-and-line gear: cod heads; cod collars; cod roe; cod chu; cod milt; ray wings; headed and gutted pollock; headed and gutted sablefish; sablefish heads; sablefish collars. The cod heads, cod collars, cod roe, cod chu, and cod milt are derived from parts of the Alaska cod remaining after the heading-and-gutting of the cod to produce frozen-at-sea headed and gutted Alaska cod. The ray wings are derived from various species of skate, which are caught incidentally while targeting Alaska cod. The remaining products are also products and byproducts that are caught incidentally while targeting Alaska cod, except as specified below.

ALCC also plans to export the following products and byproducts caught on longline catcher-processor vessels using longline hook-and-line and longline pot gear: headed and gutted sablefish; sablefish heads; sablefish collars. The catch accrues against sablefish allocations to the Members.

ALCC also plans to export the following products and byproducts caught on longline catcher-processor vessels using longline hook-and-line gear and, when permitted by regulation, longline pot gear: headed, gutted, and tailed Greenland turbot; and turbot heads. The catch accrues against Greenland turbot allocations to the Members.
