

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679****[Docket No. 240304–0068; RTID 0648–XD955]****Fisheries of the Exclusive Economic Zone off Alaska; Atka Mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands Management Area****AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian district (CAI) of the Bering Sea and Aleutian Islands management area (BSAI) by vessels participating in the BSAI trawl limited access sector fishery. This action is necessary to prevent exceeding the 2024 total allowable catch (TAC) of Atka mackerel in the CAI allocated to vessels participating in the BSAI trawl limited access sector fishery.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), September 16, 2024, through 2400 hours, A.l.t., December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan (FMP) for Groundfish of the BSAI prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2024 TAC of Atka mackerel, in the CAI, allocated to vessels participating in the BSAI trawl limited access sector fishery was established as a directed fishing allowance of 1,489 metric tons by the final 2024 and 2025 harvest specifications for groundfish in the BSAI (89 FR 17287, March 11, 2024).

In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the CAI by vessels participating in the BSAI trawl limited

access sector fishery. While this closure is effective, the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion, and would delay the closure of the Atka mackerel directed fishing in the CAI for vessels participating in the BSAI trawl limited access sector fishery. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of September 13, 2024.

The Assistant Administrator for Fisheries, NOAA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 16, 2024.

Karen H. Abrams,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 679****[Docket No. 240304–0068; RTID 0648–XD945]****Fisheries of the Exclusive Economic Zone Off Alaska; “Other Rockfish” in the Aleutian Islands Subarea of the Bering Sea and Aleutian Islands Management Area****AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.**ACTION:** Temporary rule; closure.

SUMMARY: NMFS is prohibiting retention of “other rockfish” in the Aleutian

Islands subarea of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary because the 2024 “other rockfish” total allowable catch (TAC) in the Aleutian Islands subarea of the BSAI has been reached.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), September 16, 2024, through 2400 hours, A.l.t., December 31, 2024.

FOR FURTHER INFORMATION CONTACT: Steve Whitney, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR parts 600 and 679.

The 2024 “other rockfish” TAC in the Aleutian Islands subarea of the BSAI is 380 metric tons (mt) as established by the final 2024 and 2025 harvest specifications for groundfish in the BSAI (89 FR 17287, March 11, 2024). In accordance with § 679.20(d)(2), the Administrator, Alaska Region, NMFS (Regional Administrator) has determined that the 2024 “other rockfish” TAC in the Aleutian Islands subarea of the BSAI has been reached. Therefore, NMFS is requiring that “other rockfish” in the Aleutian Islands subarea of the BSAI be treated in the same manner as a prohibited species, as described under § 679.21(a), for the remainder of the year, except “other rockfish” species in the Aleutian Islands subarea caught by catcher vessels using hook-and-line, pot, or jig gear as described in § 679.20(j).

Classification

NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR part 679, which was issued pursuant to section 304(b), and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment would be impracticable and contrary to the public interest, as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion, and would delay prohibiting retention of “other rockfish” in the Aleutian Islands subarea of the BSAI.
