Abstract: The Environmental Protection Agency's (EPA) Office of Mission Support provides funding via grants to EPA's Exchange Network partners (states, territories, and federally recognized Indian tribes) to support the development of the Exchange Network (EN). The EN facilitates the sharing of environmental data, especially through shared and reusable services; streamlines data collection and exchanges to improve timeliness for decision making; increases the quality and access to environmental data; reduces burden and costs for co-regulators and the regulated community; supports better decisions on environmental and health issues; and increases capacity for environmental data management for tribes and US territories. As part of the terms and conditions of the EN grant program, recipients are required to submit the following forms: (i) Semi-Annual

Progress Reports (EPA Form 5300–26) twice annually throughout the lifetime of the project, Final Progress Report (EPA Form 5300–26) within 120 calendar days after the period of performance end date, and the IT Component and Project Registration Form, at the time of grant close-out. The information gathered on items (i) and (ii) help EPA to ensure that projects are on schedule to meet identified project goals and produce high quality environmental outputs. The registration form (item iii) provides a detailed summary of the completed project and any developed/reused IT components; this information is made available to future applicants to inform the development of their proposed projects, promote the reuse of technologies, and connect to potential project partners and mentors.

Form Numbers: EPA Form 5300–26.

Respondents/affected entities:

Employees of state, tribal, or territorial environmental government offices.

Respondent's obligation to respond:

Required to obtain or retain a benefit (2 CFR part 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards).

Estimated number of respondents:

223 (149 semi-annually for the semi-annual progress report form; 38 annually for the IT Component and Project Registration Form, and 38 annually for the Final Progress Report Form).

Frequency of response: EPA assumes that each grant recipient will submit two Semi-Annual Progress Report Forms each year the grant is active. In addition, the grantees will submit the Final Progress Report to RENC no later than 120 days after the grant performance period end date. At this time, the IT Component and Project Registration Form will likewise be submitted.

Total estimated burden: The sum total respondent burden hours are 493. Burden is defined at 5 CFR 1320.03(b).

The Semi-Annual Progress Report Form has 1.2 estimated hours per Form and is completed twice a year by an estimated 149 respondents. Therefore, the total annual respondent burden hours for this form are 357.6. The IT Component and Project Registration Form has 2 estimated hours per Form and EPA estimates that 38 will be completed annually. Therefore, the total annual respondent burden hours for this form are 76. The Final Progress Report Form has 1.65 estimated hours per Form and EPA estimates that 38 will be completed annually. Therefore, the total

annual respondent burden hours for this form are 59.4.

Total estimated cost: \$29,530.70 (per year), which includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a slight decrease of 15 (493 hours in 2024 vs 508 hours in 2021) hours in the total estimated respondent burden as compared with the ICR currently approved by OMB. The number of open active grants each year was estimated at 149, which matches the 2021 estimate, as the number of new assistance agreements has remained consistent since 2021. Estimates for the Final Progress Reporting Form is also very similar to the 2021 estimate, with only a slight increase in the number of expected closed-out grants (from 36 in 2021 to 38 in 2024). This slight increase reflects an expectation for more EN assistance agreements to close out in the upcoming years, as projects which were initially delayed due to workplace changes associated with COVID–19 are now being completed. The slight decrease in burden hours for respondents can be attributed primarily to the retiring of the Quality Assurance Reporting Form, which was previously required within 90 days of each new assistance agreement. There was a new form added for this ICR, which was not present in the 2021 version. The IT Component and Project Registration Form is a fillable PDF form, that is submitted by the grantee to their Regional Exchange Network Coordinator (RENC) at the time of grant close-out. As this form is due at the time of grant close-out, the estimated number matches the estimated number of Final Progress Reports (38). This new form is estimated to take 2 hours to complete, which is a decrease of 0.6 compared to the retired Quality Assurance Reporting Form.
