Notice of Intent To Prepare a Supplemental Environmental Impact Statement for the Proposed Rio Grande LNG, LLC and Rio Bravo Pipeline Company, LLC Rio Grande LNG Terminal and Rio Bravo Pipeline Project, Request for Comments on Environmental Issues, and Schedule for Environmental Review

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare a supplemental environmental impact statement (supplemental EIS) that will discuss the environmental impacts of the Rio Grande LNG and Rio Bravo Pipeline Projects involving construction and operation of facilities by Rio Grande LNG, LLC and Rio Bravo Pipeline Company, LLC.¹ On August 6, 2024, the U.S. Court of Appeals for the District of Columbia Circuit issued an opinion vacating and remanding the Commission's November 22, 2019 *Order Granting Authorizations Under Sections 3 and 7 of the Natural Gas Act* and its April 23, 2023 *Order on Remand and Amending Section 7 Certificate* that approved the liquefied natural gas (LNG) terminal and pipeline project, including a pipeline amendment in FERC Docket No. CP20-481-000.² On remand, the Commission will consider whether to grant a Natural Gas Act (NGA) section 3(a) authorization for the Rio Grande LNG Terminal and an NGA section 7(c) certificate of public

convenience and necessity for the Rio Bravo Pipeline Project.³ The schedule for preparation of the supplemental EIS is discussed in the *Schedule for Environmental Review* section of this notice.

The Commission must determine whether to authorize the projects under the NGA, taking into consideration the factors discussed in the court's decision. The supplemental EIS will tier off Commission staff's analysis and conclusions as documented in staff's April 26, 2019 final EIS for the projects. The focus of the supplemental EIS will be the issues identified by the court as requiring further analyses (*i.e.*, environmental justice impacts, air quality, and alternatives). The Commission will use this supplemental EIS in its decision-making process to determine whether to authorize the Rio Grande LNG and Rio Bravo Pipeline Projects in light of the court's vacatur and remand.

As part of the National Environmental Policy Act (NEPA) review process, the Commission takes into account concerns the public may have about proposals and the environmental impacts that could result from its action whenever it considers the issuance of an authorization. This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the issues that will be analyzed in the supplemental EIS. Additional information about the Commission's NEPA process is described below in the *NEPA Process and the Supplemental EIS* section of this notice.

By this notice, the Commission requests public comments on the scope of issues to address in the supplemental EIS. To ensure that your comments are timely and properly recorded, please submit your comments so that the Commission receives them in Washington, DC on or before 5:00 p.m. Eastern Time on October 15, 2024. Comments may be submitted in written form. Further details on how to submit comments are provided in the *Public Participation* section of this notice.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable

³ The Commission approved four discrete route adjustments to the Rio Bravo Pipeline Project in FERC Docket No. CP23-519-000 (*Order Amending Certificate* issued May 23, 2024). The supplemental EIS will analyze the pipeline as amended by these route adjustments.
